

### THE LABOR PARTY.

Clearly the Labor party is not a party of the working people. The Accord hoax promoted by State and Federal Labor governments has drastically cut wages while prices and profits soar. The foreign debt is at record levels, 3 million people live in poverty and unemployment and homelessness are rife.

Life for the working people is getting harder, as it is bound to do under capitalism.

### TRANSNATIONAL CORPORATIONS.

The foreign Transnational Corporations dominate us economically, politically and culturally. They make enormous profits which are sent overseas, thus adding to our indebtedness and impoverishment. The grip of the transnationals must be broken. Let us step up the struggle to defend wages and working conditions, and uphold the right to strike.

### ON MAY DAY.

Conditions in Australia are increasingly favourable for the stepping up of revolutionary struggle against capitalism and imperialism and for socialism, but this struggle can only be victorious under the leadership of a genuinely revolutionary Communist Party, a party guided by Marxism-Leninism-Mao Tse tung thought.
