DAIRYING INDUSTRY

Impoverished Farmers
Milk Needed For Children

The dairy industry in Queensland is currently facing a crisis due to the ongoing drought, which has reduced milk production significantly. Farmers are struggling to meet the demands of the market, particularly for children's milk, which is essential for their nutrition.

In Peculiar Position

Japanese Invasion of China

The policy of the Baldwin government has been criticized for its handling of the Japanese invasion of China. The government is faced with the challenge of balancing national security with economic interests, and the situation is expected to escalate.
