Program For Peace, Plenty, Independence Of Australia: Communist Senate Manifesto

THE seven-point election program of the Australian Communist Party's Victorian Senate team is aimed at protecting the interests of Australia and all the useful people who are Australians.

The program covers the main needs of the vast majority of the people of Victoria - workers, farmers, shopkeepers - of all ages and both sexes.

PEACE MUST BE DEFENDED.
The atom bomb and war are destroying health, wealth, and social life.

The United States is the greatest enemy of peace and the peaceful development of the world. China is an ally of peace.

PEACE can be won through continued co-operation with the Soviet Union and the warmongers of Wall Street.

Eliminate the Monroe Doctrine and the Pacific Peace Union alliance would wipe out thereat of war and stop the money to the armament factories.

FARMERS: None will go to make American bonds.

We stand for the immediate nationalisation of the banks, the nationalisation of the Post Office, the nationalisation of the coal mines, the nationalisation of the steel and automobile industries, and the nationalisation of the railroads.

LIVING STANDARDS: Today the price of bread is 100 times higher than it was in 1914.
