ALL FOR THE FIGHTING FUND

(From a report to the Central Committee meeting, 18-20 February, 1949.)

J. C. HENRY

I was particularly impressed by Comrade Dimov's call for our Party to make for more work in all our work of popularising the Soviet Union, on the basis of the actual achievements, than has been done up to the present time. There is no doubt that since the conclusion of the war, in contrast to the capitalist world, the achievements attained in the socialist world are indeed enormous; in fact, the pile of grains and it is a tremendous project, and shows the giant strides that are being made in the land of socialism by man in his struggle to master nature. To my mind the Soviet project is the greatest project that has ever been launched in this field of endeavour anywhere in the world.

When we take into consideration the crisis of the capitalist world and the fact that there is no way out for the capitalist order, and that the methods by which they will seek to go out for the time being are taxation and war, putting greater burdens on the backs of the working people, this should do far more to convince the people about socialism. For more to popularise the Soviet Union than anything else at the present time. That is, we must do as Comrade Dimov has said, really bring before the masses of our people, the reality of the development in the Soviet Union and contrast this with the reality of the declining capitalist world.

In Australia all the general political and economic trends that are involved in the international situation are manifest and the signs of an approaching crisis are becoming clearer from day to day.

In this situation and leading up to the particular subject that I wish to speak about at this moment is the necessity for us always to be very conscious of the role and responsibility of the Party, for the answer to the problem, that is the answer to the crisis, together with the restoring of the people in the capitalist world are concerned, for in the struggle against the decay of the capitalist order — in the victory of the workers in the capitalist countries. This is the only answer to the problem that confronts our Party today with the same as the people in the Western capitalist countries.

As we have discussed before, in the present immediate situation — in the struggle for peace, which is a definite, concrete struggle against the warmongers — in the struggle to bring about a correct position in the political situation in the direction of socialism in the fight against the attempts of the capitalist class to solve the problems of the capitalist order upon the masses of the working people — it is essential that we work with the aim of building up from every possible angle a great mass movement of the Australian people.

This movement, irrespective of the particular field in which it is carried on the peace movement, must be greater than a struggle against imperialism, a struggle against the policy of the monopolists here in Australia; for the war mongers and those who are the instruments of the anti-democratic movement and legislation, and those who would seek to re-arrange the position of the great mass of the workers and producers in a desperate effort to retain their profits — these are one and the same people. These are the monopoly capitalists, these are the Australian imperialists who, in pursuit of their own interests, are placing the future independence of our country in jeopardy, who are seeking to limit our country up as a base against the progressive movement in the country north of Australia and as part of the world anti-imperialist bloc, as was so clearly indicated by Comrade Dimov yesterday.

I was very hard for me to understand what one of the comrades was getting at when he was talking about the peace movement, for I gather from his remarks that there needed to be an understanding on the part of the working class to win allies. But our whole policy is on the whole conception of our Party and of the need to work for, or at any rate, to contribute to the struggle for peace — that is the struggle against the war mongers, the creation of a great public opinion for peace, for we consider this as being led by the Communist Party that is not only the correct answer, but only the Communist Party can lead and maintain a correct position in such a struggle. But this does not deny at any time the need for the assistance of the workers, we need the assistance of all the people who are, for the time being at any rate, in agreement with the Communist Party on one question even if on no other, whether it be the struggle for peace, the struggle to retain democracy or whatever it is.

Therefore, I am therefore of the view that we should be working with every possible angle a great mass movement of the Australian people.
understand what we are speaking about when we talk of a broad movement.

I do not think that the enthusiasm that we feel for the FPC is simply because it is an attractive cause to work for, but because we believe that this is the only way that we can develop the strength and the mass movement that is necessary to bring about the changes that we desire. It is not just a way of expressing our own ideas, but it is a way of challenging the establishment and its policies.

I believe that it is important to consider the broader context of the struggle. We must understand that the struggle is not just about the current issues, but it is about the future of the country. We must consider the long-term implications of our actions and decisions, and we must be prepared to make difficult choices in the face of adversity.

It is important to remember that the struggle is not just about the immediate issues, but it is about the future of the country.

The future of the country is at stake, and we must be prepared to make difficult choices in the face of adversity.
The Party has a fair membership throughout N.S.W., a fair membership throughout Australia. Do you think it will be possible to get $40,000 in N.S.W.? One thousand subscribers at an average of $50 per head would make it. Do you think that it would be possible to get $10,000 from the other States? I think that it would be possible to get $10,000 from each State. We want to make this a national drive. If we can get the support of all the States, we can get $40,000. Do you think it is possible to get $40,000 in N.S.W.? I have no doubt that it is possible.

The Party is working hard to get this money. We have set up a campaign to raise a minimum of $10,000 in N.S.W. We have set up a national drive. If we can get the support of all the States, we can get $40,000. Do you think it is possible to get $40,000 in N.S.W.? I have no doubt that it is possible.
