THE NEW POLITICAL AND MILITARY STRUGGLE
(1) Democratic Glance and Territorial Futurity
When the first post-war-five-year plan for the economic, social, and cultural development of the U.S.S.R. was adopted in March, 1946, the government announced that it would be primarily for the benefit of the working class and the poor. The plan called for an increase in industrial production, an expansion of agricultural output, and a rise in the standard of living for all citizens. The government also announced that it would be. in the interest of the people, and that it would be carried out in a democratic and just manner.

(2) The Resistance Movement
In addition to the economic and social developments, the government has been working to strengthen the resistance movement against the Soviet Union. This movement has been growing in strength, and the government is taking steps to suppress it. The government has arrested and imprisoned many leaders of the resistance movement, and has launched a campaign of propaganda to discourage further resistance.

(3) The Soviet Union
The Soviet Union is a very important country in the world today. It has a large population, and its economy is growing rapidly. The government is working hard to improve the standard of living for its citizens, and to strengthen its position in the world. The Soviet Union is also a very important ally of the Western powers, and its support is essential to the maintenance of world peace.

(4) The Polish Security Police
The Polish Security Police, also known as the Gestapo, has been one of the most feared and hated agencies in Europe. The government has arrested and imprisoned many of its leaders, and the country is now free from its influence.

The members of this organisation were told that they were in the service of the Nazi party, and that their services were needed for the furtherance of the Nazi cause. The members were arrested and imprisoned, and their leaders were publicly executed. The whole organisation was destroyed.

Very little is known about similar partisan groups in other countries. However, certain trends are apparent. In some cases, the resistance movement has been able to establish itself in rural areas, and to gain the support of the local population. In other cases, the resistance movement has been suppressed by the government, and its leaders have been arrested and imprisoned.

War and Aggression

New generation of Saint to the war in the Soviet administration. The new generation of party men trained in the war, who have earned their spurs in revolution, are the future of the party. Those young men, mostly without experience in the world, are ready to defeat the Stalinists in the new generation of party. Malenkov's intrepid fighter in the Soviet administration and the army. Shengvalov, a former member of the party, who has been in the army for more than thirty years. One of the leaders of the new generation of party men is Malenkov. This is the reason why we find not one of the victorious party and government officials in the next generation of party. The most important part of the new generation of party is Stalin's support.
