Peace Movement Broadened By Students, Ex-Servicemen

Powerful peace resolutions passed by the Legion of Ex-Servicemen in Victoria and by the National Union of Italian University Students' Congress were warning warmongers at home and abroad that the peace front ends for beyond the war workers, the trade unions and progressive liberals.

The peace resolutions were passed at a time when the Menzies-Fadden Government is preparing to take part in aggressive military plans in the Pacific, when the "Berlin Crisis" is being cooked up, when American imperialism is making a threat of a hydrogen-mass-murder bomb and General Blamey calls for fraternization with the Japanese, the worst that Australians ever did.

In addition to expressing peace sentiments, the Legion of Ex-Servicemen at their convention at Melbourne expressed their discontent against the policy of General MacArthur in re-arming Japan and his intention of setting Japan in Australia.

M.R. PORLAND (North) and W. Melbourne branches) said that General MacArthur had ignored the wishes of the Australian people and was acting as dictator thereof.

The Legion of Ex-Servicemen in Queensland is one of the most important forces behind the peace campaign.

Mr. G. JOHNSON (North) said that there was close parallelism between the peace campaign in Australia and the peace campaign in the United States of America.

Scientific Freedom

Scientific Freedom (1) "That the right of every person to freedom of speech, freedom of the press, freedom of inquiry, freedom of education and freedom of scientific research should be guaranteed by the states without regard to the principles of any scientific or religious beliefs."

Outlaw A-Bomb

The National Union of Australian University Students, by a resolution passed at their convention held in Sydney, have appealed to the Prime Minister to support the peace drive and outlaw the A-bomb.

The National Union of Australian University Students is one of the most important bodies in the peace campaign.

The NUASA resolution expresses the opinion of students throughout Australia and their voices will be heard in the next election.

A recent lunch held by the NUASA at the University Union Hall was attended by over 200 students.

Student Campaign

The campaign for peace is being conducted by the Young Victory Council, a new organisation which has been formed to co-ordinate the peace movement.

The council has issued a statement calling for a general strike in Australia and the United States of America.

The council is composed of representatives of all the major peace organisations.

NORWAY LAND TAKEN FOR WAR EFFORT

LONDON—Norwegian farmers, agricultural workers and industrial workers have vetoed plans for compulsory land seizures in their country, in protest against the Norwegian Government's plans to take land for the war effort.

The Norwegian Peace Committee has stated that it is "most important" to the Norwegian people to provide land for the war effort.

"We are not going to give up our land without a fight," said one Norwegian farmer. "We have worked hard to build up our farms and we are not going to let anyone take them away from us without a struggle."
