Party Launches

The Communist Party in Victoria has launched a £20,000 fighting fund.

The fund was announced at the first meeting of the new committee of the Party, members pledged to give more than £5.

Most of the committee said Party functions on low wages.

Every day it is becoming more and more obvious that the Communist Party is the only Australian political party which is fighting on a real fight in the interests of the people against profiteers, war-mongers, and the curtailment of democratic rights.

To wage this fight effectively the whole work of the Party needs to be stepped up.

- Higher living standards, peace, and extension of democratic rights.

London.—French workers are preparing defensive action to prevent attempts to goad Communist Party leaders Maurice Thorez and Marcel Cachin, and to frame other workers’ leaders as “spies” for refusing to support aggression against France’s ally, and refusing to surrender France’s independence.

The General Confederation of Labor, embracing the vast majority of unions, threatens mass action if the government goes against Thorez, the C.C.F.’s publishing office, the C.C.F.’s publishing office, or the C.C.F.’s publishing office, or the C.C.F.’s publishing office.

Interior Minister Maurice’s police are raiding union offices and private homes.

The French Communist Party is mainly the underground movement in France, and the government is afraid of its strength.
