Land Rights:
After Tracy
No Excuses!

PEOPLE all over Australia were horrified by the tragedy that struck Darwin at Christmas.

We were shocked at the pictures and stories of families, suddenly homeless, forced to leave places where they had lived for years. We felt for those who remained, living in lousy conditions under arbitrary rule.

A section of Darwin's population, however, have lived under similar conditions for over a hundred years. The Larrika people and the other black residents of Darwin have been living a lousy existence, under arbitrary rule ever since they were driven from their places where they had lived for thousands of years.

Oddly, they didn't exactly create equality of suffering. Black leaders have claimed that blacks were treated as second class citizens during disaster operations. But it has been the labor government's responsibility to make good on the long-standing black grievances.

The Larrika, who used to inhabit 100 square miles of Darwin, before the white man came, now have a number of land claims in for a long time. To help fight for their claims, black people in Darwin formed the Laurie Gurrurrji Association. It means 'our land' in Larrika.

The most sacred place for the tribe was called Nanga. It's now called Nomba Point and is inside Larrika Army barracks.

The barracks blew away at Christmas. So did a lot of other places that Justice Woodward said were affected by 'town planning considerations and the possible effects on rights of other persons acquired in good faith.' They do not exist anymore and there are no longer grounds for not meeting the Larrika's claims.

While the Labor Government is busy breaking so many promises, the Larrika reconstruction will proceed, but a number of the first promises it broke. Land rights for Aborigines.

But the January edition of Junji, the newsletter of the Darwin Gurrurrji Association reports: 'The settlers are rushing about like ants, rebuilding. They are buying our land with their rotting garbage.'

$1 Million Rise

BHP GOT IT... BUT YOU WON'T!

WHEN YOUR WAGES go up by 30 percent in the last 12 months? Will you be making over a million dollars more next week? Have you had more in wage rises during the last 23 months? 7.8 percent a year ago, 5 percent in April, and 7.5 percent in July. How you going to get another six percent. The Financial Review says that BHP's steelmaking operations are now twice as profitable as they were two years ago.

These rises are proof that the Prices Justification Tribunal does just what the name says it; it justifies prices! And they are proof that the cause of inflation lies in the power of monopolies, not in wage increases.

The largest increase will flow directly to 105 industries. In each of those industries the management will immediately demand 'wage restraint' from their employees, to make up for the increased costs. If you work for one of these companies, get ready to defend yourself.

Despite the price rise, the monster is still hungry. It's hard to say for what. BHP is cutting back production, especially at Port Kembla. This will lead to unemployment in the metal trades, and the workers will be harder hit. The government will not be held responsible for the consequences!

There's gold in them there mills!!

When workers strike they are accused of holding the country to ransom. When BHP announce restructurings, the government complains about the arrogance of foreign multinationals, which it says are beyond its control. But here is an Australian company which is holding the whole bloody country to ransom.

The Labor government must do something about that. It could call on the amalgamated Metal Trades' Union, which is affiliated to the ALP, to launch an industrial campaign to force BHP to cut prices. It could call on consumers to hold public protests, and to local ALP branches to organize those.

Meanwhile, if one tells you that your pay rise is causing inflation, just think of BHP.

FOR WHOM THE (SCHOOL) BELLS TOLL

by Toss Lee Ack, VSTA member

Some of us expected the strike to take place eventually, especially after the Committee's February 23 meeting and last year, and after the militant teacher section over winter break last term.

But it still looked like the rank and file in all 13 schools in the Association would be participating in a mass meeting on February 3rd to sort out the details and decide on actions.

The big question was whether the Association would walk out. The teachers had already decided to shut down the schools, but the Association was not sure about the school administration.

The Association leaders said they had not heard from the school administration since the last meeting on Wednesday, February 1.

IMPERIALIST DEFEAT LOOMS IN INDO-CHINA

by Tom O'Lincoln

In the battle for Dien Bien Phu, the North Vietnamese army and their allies are bracing for a pitched battle with the South Vietnamese forces. After the South Vietnamese forces occupied the town of Dien Bien Phu, they began a military operation to retake the town. The fighting was intense, with both sides suffering heavy casualties. Despite the heavy losses, the North Vietnamese forces remained determined to hold onto the town. The battle for Dien Bien Phu is expected to continue for days or even weeks, as both sides are preparing for a long and bitter struggle.

HOW THEY STOPPED SPINOLA

In July 1975, workers in the shipyard in Palermo, Sicily, went on strike to protest the dismissal of a worker named Spinola. The strike quickly spread to other workers, who formed a committee to negotiate with the factory owners. The committee demanded better working conditions and higher wages, but the factory owners refused to budge. The workers retaliated by occupying the factory and refusing to work. The government tried to intervene, but the workers were determined to continue their strike. Finally, after several weeks of negotiations, the factory owners agreed to the workers' demands, and the strike ended.

SOCIALIST WORKER

The strike was a significant moment in the history of labor in Italy. It showed the power of workers to organize and stand up for their rights. The workers in Palermo were able to force the factory owners to make significant changes, which improved the conditions of all workers in the area. The strike also demonstrated the strength of the socialist movement in Italy, as the workers were able to use their collective power to achieve their goals.

REPUBLIC OF PORTUGAL

In Portugal, a similar struggle was taking place. The workers in the shipyards in Lisbon were also demanding better working conditions and higher wages. The government tried to suppress the strike, but the workers were determined to continue fighting. Finally, after several weeks of struggle, the government gave in and the strike ended. The workers were able to achieve significant improvements in their working conditions, and the socialist movement in Portugal gained significant momentum.

RUSSIA 1917

In Russia, the workers in the factories were also demanding better working conditions and higher wages. The government tried to suppress the strike, but the workers were determined to continue fighting. Finally, after several weeks of struggle, the government gave in and the strike ended. The workers were able to achieve significant improvements in their working conditions, and the socialist movement in Russia gained significant momentum.

DUAL POWER

What Happens Before

On April 28, 1936, General Franco (Rodriguez) took control of the Spanish government in a coup d'etat. The government was unable to regain control, and the coup was followed by a civil war. The International Communist Movement supported the Republican government, while the Nationalist forces were supported by the Fascists of General Franco.

From Dual Power to Workers' Power

In Portugal, the workers in the factories were also demanding better working conditions and higher wages. The government tried to suppress the strike, but the workers were determined to continue fighting. Finally, after several weeks of struggle, the government gave in and the strike ended. The workers were able to achieve significant improvements in their working conditions, and the socialist movement in Portugal gained significant momentum.

SPAIN 1936

In Spain, the workers in the factories were also demanding better working conditions and higher wages. The government tried to suppress the strike, but the workers were determined to continue fighting. Finally, after several weeks of struggle, the government gave in and the strike ended. ALP CONFERENCE REJECTS WAGE RESTRAINT

THE ALP Victorian State Conference is nothing like the Socialist conference. The socialists had the dedication, the enthusiasm, the spirit of the movement. The ALP has a long way to go before it can be a real worker’s party. The socialists stand for a new form of democracy. The ALP does not. The socialists stand for a new form of industry. The ALP does not. The socialists stand for a new form of government. The ALP does not.

The story of the copper mine at Bougainville Island, Papua New Guinea, was a turning point in the struggle for mineral resources in the Pacific. The mine was operated by a multinational corporation, and the local population was promised economic benefits and job opportunities. However, the reality was far different, as the corporation imposed harsh working conditions and competed with local businesses for resources. The story was covered extensively in the media, leading to a public outcry and international pressure on the corporation to improve its operations.

Monash bosses CLEAN UP
by John Sullivan

In a recent move, Monash University has completed a series of changes to its management structures. These changes have included the appointment of a new Director General, the implementation of a new budget system, and the reduction of the number of senior administrators. The changes have been met with mixed reactions from staff and students, with some applauding the reduction in bureaucracy and others expressing concern over the impact on service levels.

What We Think
NOT SO NICE!

The University Administration has received criticism for its handling of the changes. Staff and students have expressed concern over the impact on their day-to-day work, with some feeling that the changes have led to a decrease in services. The Administration has responded by stating that they are working to ensure that the changes do not negatively impact the university community.

10 week strike: $10 rise

In a recent announcement, the university has proposed a 10% rise for all staff over a 10-week period. However, the union has rejected the proposal, citing the need for a more substantial increase. The union has called for a 15% rise over the same period.

10 YEARS OF CORRUPTED V.C.

There have been several allegations of corruption involving the Vice-Chancellor of Monash University. Staff and students have expressed concern over the lack of transparency in the university's decision-making processes and the failure to address these allegations.

NOW... FOR THE FIGHT BACK!

Staff and students have launched a boycott of the university's administration, calling for a return to the pre-change structure. They have also called for a referendum to decide on the future of the university's management.

OCCUPATION!

The students have occupied the university's main campus, blocking access to the administration buildings. They have also established a makeshift administration office, complete with fax machines and other necessary equipment.

The students are calling for the resignation of the Vice-Chancellor and the re-establishment of the university's original administration. They have also called for a referendum to decide on the future of the university.

VSTA and Sexism

International Women's Year has been

SOUTH-AFRICA

1975

Four years ago, the VSTA Newsletter was launched

with the hope of providing a forum for discussion

and exchange of ideas on the issues affecting women

in the theatre and performing arts. Since then, there have

been several changes in the VSTA's structure and

goals, but the basic aim of the organisation remains the

same: to promote the rights and interests of women

in the arts.

The VSTA's first newsletter was published in 1979 and

included articles on topics such as the role of women

in theatre, the economic status of women artists, and

the need for greater representation of women in the

arts. Since then, the VSTA has continued to publish

regular newsletters, as well as hosting conferences

and workshops for women artists.

Recent developments include the establishment of a

women's network within the VSTA, which aims to

facilitate communication and collaboration between

women artists in different fields and locations. The

network is open to all women artists, regardless of

their level of experience or experience level, and

provides a platform for sharing ideas and resources.

On a more political note, the VSTA has also been

active in advocating for greater representation of

women in the arts, both within the VSTA and in

the wider arts community. This includes lobbying

for more funding for women artists, as well as

promoting women's art and culture throughout

the year.

Overall, the VSTA has been an invaluable resource

for women artists, providing a supportive community

and a platform for sharing ideas and resources.

In the future, the VSTA will continue to work

towards creating a more equitable and inclusive

arts environment for women artists.

Police batter building workers

They started a one-day Unite building workers' strike in Melbourne on the 21st February to assert their right to decent conditions. The police were called in and 10 workers were taken off to Victoria Police. There were scuffles and the police were compelled to hold back in a small room. One worker was carried off to hospital with internal injuries. He was not given any medical treatment. The workers were not informed of the purpose of the visit to the hospital. They were not allowed to leave the hospital without the permission of the police. They were not allowed to contact their families or have visitors. They were not allowed to have any food or drink. They were not allowed to communicate with anyone. They were not allowed to leave the hospital. They were not allowed to leave the state. They were not allowed to leave the country.

MINERS FIGHT TWO-STATE ATTACK

Queensland

The Queensland power strike is on again! The workers at the Hazelwood coal mines near Wollongong, N.S.W., have voted to strike again. This is a major victory for the workers and a victory for workers everywhere. The Hazelwood strike is being coordinated with the strike at the Wollongong coal mines.

The Hazelwood strike is part of a broader struggle for workers' rights and conditions. The workers are demanding an end to the practice of using casual labor, which is a violation of their rights and causes insecurity and instability in the workplace.

The Hazelwood strike is also part of a larger struggle for social justice. The workers are demanding an end to the practice of using casual labor, which is a violation of their rights and causes insecurity and instability in the workplace.

What We Think

The Queensland government is trying to break the Hazelwood coal miners' strike. They want to break the strike in order to avoid the costs and the inconvenience of ongoing strikes. The government is trying to break the strike by offering to bring in casual workers. This is a violation of the workers' rights and a violation of their right to a fair day's work for a fair day's pay.

COPS SMASH PRINTERS' PICKET

Sir Philip Jones' Police

That's what one of the printers on the picket line called the cops after they had beaten a path to the scene of a printing workers' strike. The workers were trying to begin a work stoppage at the Herald and Weekly Times printworks, and the police had allegedly attempted to disrupt their picketing efforts.

Sir Philip Jones is the Managing Director of the Herald and Weekly Times. He was not only one of the printing workers' main targets, but also a symbol of the corporate power that was attempting to undermine the workers' rights.

The police were shown to be brutal and heavy-handed, with reports of batons and police dogs being used against the workers. The workers were元 over the use of violence and the police's attempts to prevent them from carrying out their strike.

The situation escalated, with reports of clashes between the police and the workers. The police were seen as being heavy-handed and in some cases, excessive.

The strike continued, with the workers eventually reaching a settlement with the company. The incident highlighted the tense relationship between the police and the working class in Australia at the time.

WAGE INDEKATION

by Phil Griffiths, Instrial Editor

HOW TO SMASH THE INDEXATION ARGUMENTS

1. Indexation protects the value of your pay.

2. The wage indexation system is rigged to benefit the rich. The government has put higher indexation rates for high income earners.

3. Your indexation means that your pay will increase every little bit. This is obvious, even when you're not fighting.

Uranium

The uranium industry is in crisis. The government has been talking about uranium for years, but has not been able to find a way to make it profitable. The ACTU has proposed a program to support the uranium industry. The government has rejected this proposal and continues to focus on other industries.

Token gestures

The government has made some token gestures towards the uranium industry. These gestures include providing some financial support and a few speeches by government officials. However, these gestures do not address the fundamental problems facing the industry.

Workers' participation

The government has encouraged support for workers' participation in the uranium industry. However, this has not been effective. The industry remains in crisis, and workers continue to struggle for better conditions.

The government's arguments that indexation is necessary for employment are not convincing. Even when employment is not an issue, workers will still resist indexation. They see indexation as a way to protect their wages and ensure a fair deal.

The government has argued that the only way to protect workers' wages is through indexation. However, this argument is not convincing. Workers do not want to work for less money, and they will resist any efforts to reduce their wages.

The government's claim that indexation is necessary for employment is not true. Workers do not need indexation to keep their jobs. They will continue to work even when indexation is not an issue.

The government has claimed that indexation is necessary for employment. However, this claim is not supported by the evidence. Employment is not affected by indexation, and workers will continue to work even when indexation is not an issue.

Queensland: New laws threaten unions

The Queensland State Government has rewritten its latest Industrial Relations Bill. The Bill is a sophisticated attempt to suppress strike and picket-line action by workers in Queensland. At the same time, it attempts to buy working class support with a few vague promises of more "freedom." "Amnesty" for strikebreakers. Under these new laws, strikebreakers and so-called "permitted workers" are no longer "criminals" but are now "freedom fighters." The Bill also provides for the use of "conciliation" to settle disputes, thereby weakening the rights of workers to strike. This is a clear move towards the establishment of a "national strike and picket line ban." The Bill also provides for the appointment of "conciliation officers" to settle disputes, thereby weakening the rights of workers to strike. Working for Ford

On Tuesday, the management of the Mercury plant in Richmond issued a statement that they were going to observe the wage increase prohibited by the NLRB in July. The statement was clearly an attempt to do this without going through the usual procedures.

As a result of this, the Battler is calling for a national strike. All workers who are employed by Ford and who have not been laid off or fired in the past month are urged to take an active role in the strike. Workers who have been laid off or fired in the past month are urged to seek reemployment. Workers who are employed by non-Ford companies are urged to help in any way they can.

Not so NEAT!

On Tuesday, the national department store chain, Neat, announced that it was going to close all of its stores in the United States and liquidate its assets. The company has been struggling for years, and this is the final blow.

The Battler is calling for a national boycott of Neat. All workers who are employed by Neat and who have not been laid off or fired in the past month are urged to take an active role in the boycott. Workers who have been laid off or fired in the past month are urged to seek reemployment. Workers who are employed by non-Neat companies are urged to help in any way they can.

Wage Restraint

FOR THE BOSSES

In the past few weeks, the Battler has been receiving letters from workers who are concerned about the rapid increase in wages. The increase is due to a combination of factors, including inflation, productivity, and rising costs of living. The Battler is calling for a national wage restraint agreement.

FOR US

There will be no national strike for the September contract expiration, but the Battler will continue to fight for a fair contract. The Battler will continue to organize and mobilize workers to demand a fair contract.

RENT STRIKE!

By LORRAINE NOONAN and WIN HAMPTON of the Brooklyn-Madison Tenants Union

The Brooklyn-Madison Tenants Union is organizing a rent strike to demand that landlords lower rents. The union is worried that landlords are not lowering rents even though the cost of living has decreased.

The Battler is calling for support for the Brooklyn-Madison Tenants Union. All workers who are employed by landlords and who have not been laid off or fired in the past month are urged to take an active role in the rent strike. As Indonesia invades Timor
SILENCE IS CONSENT

by Bruce Foster

For a while it looked as though
the people of West Timor
might finally be free of the
colossus that is Indonesia.

At last, after years of
oppression and suppression,
the Timorese people had
their hope.

As Indonesia invades Timor,
the people of West Timor
are facing an uncertain
future.

What will happen if

FRETLIN loses

SOUTH-est has a bit of trouble in
interacting with governments.
It started back in 1963, when
there was a coup on top of
the other one. The
premier of the South-est was
overthrown, and there was a
new government.

The new government was
supported by the Australian
military, and the South-est was
under full control.

WOMEN

when it comes to the rights of women, the Liberals and the so-called Liberal government have done nothing to improve the position of women. It is very apparent that the Liberal government is not interested in the rights of women. It is not interested in the equality of women. It is not interested in the freedom of women. It is not interested in the participation of women in public life.

We have to go back to basics. Women have to stand up for themselves. Women have to demand their rights. Women have to fight for their equality. Women have to fight for their freedom. Women have to fight for their participation in public life.

LIZ REID - not treated seriously

All the same, Liza Reid was not treated seriously. The public was not informed about the decision. A large number of people were not aware that Liza Reid was even a candidate. The public was not informed about the reasons for her withdrawal. The public was not informed about the implications for the election.

MIGRANTS

The migrants are being treated very badly. They are being discriminated against. They are being denied their rights. They are being denied their freedom. They are being denied their participation in public life.

Neglected

Of course it is not perfect. Some jobs have been done, but much more needs to be done. More needs to be done to improve the position of the migrants. More needs to be done to ensure that the migrants are treated fairly. More needs to be done to ensure that the migrants are given their rights.

JIM McCLELLAND

The Iron Fist

The Velvet Glove

In The Helens Homes of Fraser's Ministry, power will be held by a party of the steepest at Sydney's Festival. When Opposition leader John Gorton was defeated in November, Fraser's men were elected to a majority of 51 seats in the state parliament. In the Liberal Party, Fraser is the leader of the party and holds the position of Premier of New South Wales. He has been a member of the Liberal Party since 1954 and has been leader of the party since 1973. Fraser is a strong believer in economic liberalism and has been a vocal opponent of unions.

Penal Power

The Liberal Party's leadership has been under attack in recent weeks. Some members have criticized the party's economic policies, while others have accused the leadership of being too soft on crime. The Liberal Party has traditionally been a strong advocate of law and order, and Fraser has been a vocal supporter of tough penalties for offenders. However, some members have argued that the party's tough approach on crime has led to an increase in imprisonment rates. As a result, the Liberal Party has been forced to reassess its approach on crime and to consider more humane forms of punishment.

HOW WE FOUGHT COUP

As soon as the news of the coup was announced, a few people seized the opportunity to go to the airport and try to stop the planes from taking off.

Within three hours, demonstrations were underway in every major city. In Saigon, a mob succeeded in capturing the American Embassy. A general strike was declared throughout South Vietnam. In Hanoi, the USS Pueblo was liberated.

Meanwhile, the USS Pueblo had sailed into the bay. The crew was greeted with a hero's welcome. However, the most significant event of the day was the capture of the Embassy, which was seen as a symbol of the coup.

marched

American and South Vietnamese flags were unfurled and music played in support of the demonstrators. After the demonstration, the South Vietnamese government declared a state of emergency.

LEBANON: not a religious war

Dear Editor,

I would like to express my concern that the war in Lebanon is being portrayed as a religious war. It is a war between the people of the Middle East and the West, not a war between Christians and Muslims. It is not a war to be solved by the West, but a war that must be solved by the people of the Middle East.

LABOR'S FOREIGN POLICY It Looks Good, But ...

The Labor Government has announced the implementation of a cooperation plan at home and abroad for the promotion of Australian foreign policy. Part of this plan is to increase economic and cultural exchanges with the Middle East. However, many people are concerned about the potential implications of this policy for the Middle East.

Within Australia, Labor supports the cooperation plan. It is also not clear how this policy will affect the people of the Middle East. The plan is not clear about how it will be implemented, and there is no assurance that it will be successful.

Outside Australia, there is concern about the potential implications of this policy for the Middle East. There is concern about the potential for economic exploitation and cultural domination.

The plan is a good start, but it is important that it is implemented in a way that is beneficial to the people of the Middle East.

Sincerely,

Who's taking care of Timor?

One of the questions that has been raised is who is taking care of Timor. The Australian government has been accused of neglecting Timor. However, the Australian government has stated that it is taking care of Timor. It has stated that it is providing humanitarian aid and support to the people of Timor. However, many people are concerned about the potential implications of this policy for the people of Timor.

ROBBED

On Saturday, September 21, the Queensland government announced that there will be a strike on the Queensland coalfields. The Queensland government is planning to use the strike as a means of increasing its own power and to further its own ends.

PROTEST MARCH IN LONDON

The march was called by the International Socialist Organization and the International Socialist Federation. The march was called to show solidarity with the workers in the coalfields and to demand an end to the strike.

The march was well attended and was accompanied by a large number of speeches and songs. The speeches were in support of the workers and the struggle for better conditions.

Determination

To show their strength and solidarity, the marchers marched through the streets of London, chanting slogans and songs. The marchers were determined to show the world that they were not afraid.
