The 'Free World' Helps Itself

By Janey Stone

The Angolan rebels have launched a new offensive, supported by Cuban troops, aiming to retake control of the capital, Luanda. The 'Free World' has provided military backing to Angola, and the causalities are mounting. The rebels are said to have advanced into areas controlled by the Angolan government, leading to tensions with the international community.

Cut Off

Meanwhile, the Angolan military has made significant advances in the south, cutting off several rebel strongholds. The rebels have been forced to retreat, with reports of heavy losses. The military has declared a state of emergency in several areas, as the situation escalates.

Insurrection

In the north, the rebels continue to fight, with the military struggling to contain the offensive. The situation is tense, and the international community is watching closely.

The Retreat from the Long March

by NIGEL HARRIS

Compromise

In the context of the ongoing conflict, there has been a push for a diplomatic solution. The international community is encourage dialogue to bring an end to the violence.

STRIKE WAVE SWEEPS SPAIN

by Mick Armstrong

Workers across Spain join in a wave of strike action, demanding better working conditions and an end to austerity measures imposed by the government. The strikes have led to widespread disruption, with the government struggling to contain the situation.

Rewarded

Despite the challenges, some workers have been rewarded for their efforts. The government has announced increased wages and improved working conditions as a response to the strikes.

Interview with GARY WHITE, Rank and File Militant

HOW ‘REBEL’ CARR DEALS WITH REBELS

by Alec Kahn

In 1974, GARY WHITE wrote a book titled "Rebel Kickout," which was published in 1980. The book detailed his experiences as a "rebel" worker within the Labor Party, highlighting the struggles and tactics employed by the "Rank and File" movement to gain influence within the party. The book was widely read and remains a significant text in the study of labor activism and political dissent within the Australian context.

Gary White's experiences are documented in the book, which covers his involvement in the "Rank and File" movement's efforts to challenge the party leadership's policies. The book provides insights into the dynamics of labor mobilization and the power struggles within the Labor Party, offering a rich historical account of the period.

Gary White, as a "rebel" worker, was part of a broader movement that sought to democratize the party and push for more radical policies. His activism was rooted in his belief in the need for a more inclusive and representative Labor Party, which he saw as being too dominated by the old guard and the establishment.

The book "Rebel Kickout" is not just a personal account but also a call to action, urging other workers to join the "Rank and File" movement to fight for a more equitable society. It has been influential in shaping the political landscape of Australia, particularly in the labor movement and the broader left-wing spectrum.

Gary White's work continues to be relevant, as it underscores the ongoing importance of grassroots mobilization and the need for workers to assert their power within their workplaces and the larger political sphere. His story serves as a reminder of the struggles for social justice and democracy that continue to this day.

COURAGE CALLS COPS TO SACK STEWARD

by JEFF SOAR

Butchers left with scraps

First the union leaders were too busy organizing the "national" picket, then they were away on holidays. Meanwhile the strike by meatpackers at the Oakleigh South Meatpacking and City Abattoirs collapsed.

The strike - for a $30 rise, and two meals before and after shift work - lasted 10 days. By the time the Labor Party decided to support the strike, it was well underway and was not to last any longer. Even the picketing abattoirs came out on negotiation, but on the Wednesday night the company and the union reached a settlement. But the members involved in the strike were disappointed - they wanted a higher wage. The picketing at the abattoirs lasted far longer than expected. The Daily Telegraph ran a story about the strike in its Tuesday issue. The picketers were ordered to come back to work on Monday.

The strike started on the picket line, with a group of pickets threatening to strike if the company did not agree to their demands. The company then agreed to a wage increase of $20, the picketers returned to work, the strike ended and the company was left with a $20,000 bill.

The company's response was to threaten the union with a court case. The union then contacted the Minister for Labour and Industry, who agreed to meet with the company to discuss the matter. The meeting was successful and the strike was called off.

The company's response was to threaten the union with a court case. The union then contacted the Minister for Labour and Industry, who agreed to meet with the company to discuss the matter. The meeting was successful and the strike was called off.

FRASER’S CUTS
THREATEN JOBS

Report by Alec Kahn

In solving our problems Australia will need a new idealism. A true idealist... is prepared to contribute to the cost of his ideals, to sacrifice things he values to achieve his objectives.

Malcolm Fraser 5-1-76

Here Malcolm Fraser meets with the Prime Minister’s shock troops. He looks a victim of a government programme, completely the new recommendation of the old. Fraser has got to be a victim to win in the coming election, and reduced an announcement into a document of hope, to be read by the poor, but not by the rich.

In order to gain support for his cuts Fraser has to prove that the cost of his policies will be lessened by the introduction of new methods and more efficient procedures. Fraser has demanded a document of support, a document of lessened expenditure and reduced expenditure. Fraser has reduced the cost of his policies to less than the cost of the old. Fraser has also reduced the cost of his policies to less than the cost of the old.

It’s a choice. Fraser has decided to reduce the cost of his policies. Fraser has decided to reduce the cost of his policies to less than the cost of the old. Fraser has decided to reduce the cost of his policies to less than the cost of the old.

There will be no interruption to this year’s education, welfare and urban programs under a Fraser Government. I also deny that there are plans to get down on State and local government schemes.

Philip Lynch, 23-11-75

If you, Fraser, have any

Malcolm Fraser

The Government’s $5 million welfare scheme, the $17 million amount for education, welfare, and education, will be reduced. The Government’s plans for urban programs, $30 million for improving public transport, $20 million for school grants, plus other items, will be reduced.

Only under a Liberal-National Country Party government will there be jobs for all who want to work.

Malcolm Fraser, 27-11-75

The Government has a chance to prove to the nation that it is capable of providing jobs for all who want to work. The Government has a chance to prove to the nation that it is capable of providing jobs for all who want to work.

by Mike Grewcock

As part of his ‘transport revolution’, Hamer has promised to do away with ‘dog-box’ carriages...

**HAMER’S TRANSPORT REVOLUTION**

Going round in small circles

by Phil Ilton

vcam's transport revolution is not yet the reality many of us have been hoping for. The problems associated with the transport system are not going to disappear overnight. But they still need to be addressed in a comprehensive and co-ordinated manner.

The shortage of transport facilities is a major problem. The lack of adequate public transport facilities has led to a decline in the number of people who use them. The shortage of space and the lack of proper facilities have made it difficult for people to get around.

...And then there’s the Scanlan Scandals.

Vic’s water conservation laws have been under scrutiny in recent months. The regulations have been credited with helping to reduce water usage, but they have also been criticized for being too strict. The regulations have led to protests by some who feel they are being unfairly targeted.

**WHAT WE THINK**

**WHY VOTE LABOR?**

by Tess Lee Ack, VSTA

The Labor Party has a strong record of delivering for Victorians. They have worked hard to improve public services, reduce unemployment, and improve the quality of life for all. They have also been strong advocates for the environment, and have taken steps to address climate change.

KODAK EXPOSED
Bosse Provoke
Strike
by Jeff Soar

LAST WEEK, a young woman was murdered in a clothing store. The murder occurred during a theft of clothing. The victim, an employee of the store, was shot and killed by the thief. The theft was recorded on surveillance cameras, and the thief was apprehended by the police.

The incident highlights the dangers faced by retail workers. Thefts and robberies are common in retail stores, and workers often have to work long hours in unsafe conditions. The police are working to increase security measures in these areas.

DOLE STAB: DON'T STARVE TO SAVE INDEXATION
Fraser is going to wreck it anyway

The Theses Education guidelines are a disaster for teachers. The guidelines are aimed at reducing the workload of teachers and increasing their pay. However, these measures are damaging the quality of education. Teachers are overworked and underpaid.

Workers are expected to work long hours without breaks. The guidelines fail to recognize the importance of education and the contributions of teachers. Teachers are essential to the future of our society, and we must support them.

KODAK EXPOSED
Bosse Provoke
Strike
by Jeff Soar

The strike by Kodak workers is a significant event. The workers have been unhappy with the company's decisions and have been working without union representation. The strike has led to a temporary halt in production, and the company has been forced to negotiate with the workers.

The strike highlights the importance of union representation. Workers need a voice in their workplaces, and they deserve fair treatment and compensation.

NSW SCHOOLS
Teachers stay out

The teachers' strike is a significant development. The teachers are demanding better working conditions, including higher pay and shorter working hours. The strike has disrupted many schools, and students are being affected.

The government should negotiate with the teachers to reach a resolution. The teachers are professionals who understand the needs of their students, and they deserve to be heard.

ILLAWARRA: BRUXLERS BACK DOWN

The workers at Illawarra have won a significant victory. They have been able to negotiate better conditions and receive fair compensation for their work.

The workers' success is a testament to their dedication and hard work. They have been able to stand up for their rights and achieve a better deal.

Workers’ Struggle EXPLODS

by NIGEL HARRIS

In 1973–74, three countries destroyed a long-standing colonial administration. Indonesia, the Philippines, and Thailand, new working class played a vital role in the first time as an important force. Nigal Harris reports from Southeast Asia:

In the new era, workers are mobilizing for a better life. Workers are demanding better wages, shorter hours, and a say in the running of the factory. The government has been slow to act, and the workers are growing more frustrated. The workers are determined to fight for their rights and to make their voices heard.

Students

This Niagara of popular movements is not just limited to the workers. The students are also protesting against the government. They are demanding education reforms and an end to the corruption in the government. The students are also supporting the workers in their struggles.

Industrial Workers

The industrial workers are the backbone of the struggle. The workers are demanding better working conditions and an end to the exploitation by the factory owners. They are also demanding an end to the violence against workers by the police and military.

Commune

The Commune is a network of workers and students who are working together to fight for a better life. They are demanding an end to the inequality and poverty in the country. The Commune is also demanding an end to the exploitation by the government and the rich.

Refused

The police have refused to allow the workers to demonstrate. The police have also been violent in their response to the workers. The workers are determined to continue their struggle, despite the violence.

Commune

The Commune is a network of workers and students who are working together to fight for a better life. They are demanding an end to the inequality and poverty in the country. The Commune is also demanding an end to the exploitation by the government and the rich.

Dear Battler's,

Letters From Our Readers

Teachers

Back Down

Your answer is very much to the point. The result of the Brunei boycott is that all students in Australia have lost out. The action of the teachers has been a farce and a hollow threat which only serves to show the weakness of the teachers' union and its inability to act in a united and effective way.

The success of the teachers' union depends on the support of the students, but it has not been able to get the students to join in their action. In fact, the students have shown their support for the strikers by continuing to attend classes and by giving them the usual amount of money.

In conclusion, the teachers' union has failed to achieve its objective of striking against the government. It has only succeeded in losing the support of the students and in weakening its own position.

Write to The Battler, P.O. Box 7, Richmond, Vic.

A Film About REBELLION

reviewed by Alec Kahn

HARRIS TOUR SUCCESS

The Harris tour of New Zealand has been extremely successful. The company has been able to attract large crowds to its performances and has made a profit for the union.

CHANGES IN THE BATTERER

There have been some changes in the management of The Battler. The new editor, Peter Martin, has introduced a number of reforms, including the introduction of a new section on international news.

IS books

'The Gates'

by Leslie Milhollin & Bill Travers

From the point of view of the student, this book is very useful. It provides a detailed account of the history of the university and the role of the student unions.

UP SCHOOL!

As part of the new education system, students are required to attend a special training course before entering university. This course is designed to prepare them for the transition from primary school to university and to give them an understanding of the structure of the university system.

The rich get Rydges

And they used to call it a WORKERS' game!
BLF thugs attack merger moves

WEbsite is the next link in the chain. The Minister for Industry, Mr. John Gorton, has been asked to take the initiative and not let the PLAs remain out of the loop of developments. The reports indicate that the merger was announced by Mr. Blanche and the BLF yesterday. Mr. Blanche's name was mentioned in the context of the merger.

JOE BOSSES RAILROADED

2 stories contributed by Mick Owens, Port Adelaide

On the surface, the headline of the Sydney Morning Herald in its March 28, 1970 edition, 'BLF thugs attack merger moves,' is descriptive of the situation. However, the headline is misleading as it suggests that the BLF is attacking the merger, which is not the case. The true nature of the situation is that the merger is being attacked by the BLF.

RAIL STRIKE IN NSW

All but 15 drivers out of the 150 who work for the Sydney Tramway Board in Sydney are on strike. The strike is in response to a reduction in the number of drivers, which has led to a decrease in the number of drivers available to work.

Jamaican bosses waiting for a Kerr

from HOWARD SPENCER in Kingston, Jamaica

China

What is it all about?

Chile Solidarity Committee FILM NIGHT

Campamento, "Sellers during Aldrich's time"

TUPERMOS, Artic film of the beginning of

The Easter Rising

The Easter Rising was a pivotal moment in Irish history. A rising led by Irish republicans took place on Easter Monday, 1916, against British rule in Ireland. It was a significant event that contributed to Ireland's struggle for independence.

Sunshine Enquiry

The Sunshine Enquiry was initiated by the British government in 1922 to investigate allegations of corruption in the Irish Free State's Central Bank. The inquiry led to the resignation of several politicians and officials.

Jamaican bosses waiting for a Kerr

Howard Spencer reported from Kingston, Jamaica, on the situation involving Jamaican bosses waiting for a Kerr. The article discusses the political and economic context of the situation.

China

The context of the Chinese situation is discussed, focusing on the challenges and implications of the Chinese revolution. It touches on the political landscape and the role of various factions and leaders.

Chile Solidarity Committee FILM NIGHT

The film "Campamento," a documentary about Aldrich sellers, and "Tupermos," an artic film of the beginning of something, are mentioned. These films likely shed light on particular aspects of the events or issues of their time.
Willis won't... can Wran?

**Disowning**

Wran and Willis will be fighting to give their parties their first victory in the Sydney elections. Willis is putting up his own candidates in Sydney, but Wran is in the process of nominating candidates for Labor in the electorate of Sydney, where he hopes to take his second victory against Willis.

**Inflation**

Willis fears that the price of living in Sydney may rise due to the government's decision to increase taxes. This will affect not only the Sydney electorate but also the general public, who may feel the pinch of higher costs.

**Broken**

Willis is concerned about the state of the economy in Sydney, which he believes is in a state of disrepair. He feels that the government's policies are not working and that a change in leadership is needed.

**George Petersen speaks:**

George Petersen is a member of the New South Wales Legislative Council. He believes that Willis' policies are not working and that a fresh approach is needed to address the state of the economy in Sydney.

METAL TRADES AWARD

CLAIMS DISCUSSED

RBNL - MELBOURNE

The 1976 Metal Trades Award is currently being discussed as part of the Federation of Unions. The award for the 1976 year is being discussed as well.

Meanwhile, the arbitration committee is still discussing the matters that have been brought to them by the Metal Trades Award. It is very important that this matter be discussed.

Television Strike

It is another attempt to get the strike deal through by giving the court more power. The union must take the pill more seriously. It is not just a question of winning a strike deal for the workers. The workers must take the pill more seriously.

ITALY ON THE BRINK

There is no question about the most serious political crisis for years: Paralyzing the fall of the new government and threatening the country's future is the possibility that the new elections will give a majority to the Communist Party.

The situation is the result of inter-party political deadlock, in the face of a national economic crisis with serious consequences for the country.

The government has been unable to form a coalition government. As a result, there has been a series of financial problems and an economic downturn. The country is facing a serious political and economic crisis.

There has been widespread dissatisfaction with the government's performance. The people are calling for change and new leadership.

Demonstrations

They were followed by a demonstration called by the Christian Democracy Party. The demonstrators marched to the government building, calling for new elections and demanding the resignation of the government. The police used tear gas to disperse the crowd.

Clunies-Ross, just another boss

Charles Roser, the leader of the Liberal Democratic Party, has been named prime minister. This is the result of a political crisis in the country, where the government was unable to form a coalition government.

Slavery

In recent years, there has been concern about the issue of slavery in the country. The government has been lobbying with the United Nations to bring attention to the issue.

 Russo: NOT BUTTER

A debate has been raging about the use of butter in the country. The government has been pushing for the use of butter, while the opposition is calling for the use of alternatives.

Rozey, the new boss

The government has appointed a new leader, Rozey, to take over the reins of the government. This is the result of a political crisis in the country, where the government was unable to form a coalition government.

Holding Hawks Deal at Sunshine

The government has signed a deal with Hawks to continue to protect the country's borders. This deal has been met with mixed reactions from the public.

Millionaire Square

The millionaire square in the city has been the site of a number of protests and demonstrations. The protesters are demanding better living conditions for the people.

May 1974
Amid slaughter
They promised a Land for Heroes.
Amid peace
They offered starvation.

But the workers refused to starve.
The showdown came 50 years ago this week.

THE BRITISH GENERAL STRIKE - 1926

FROM 1914 to 1918, British workers had been sent to die in the mud of the Western Front. The Great War had brought new forms of industrial capitalism. It was the era of industrial concentration, of large-scale production, and of the association of workers. The workers were divided, and the strikes were often violent. The government, dominated by the Liberals, had passed the Trade Disputes Act, making it illegal to strike. But the workers refused to be divided. They fought back, and the strike was a victory for the workers.

Red Friday
In 1926, the Government faced a major test of its strength. The National Union of Mineworkers, led by the radical leader John L. Lewis, launched a general strike. The strike was a major test of the government's commitment to industrial peace. It was the largest strike in British history, involving millions of workers. The strike was a victory for the workers, and it marked the beginning of a new era of industrial conflict.

Defeat then Victimisation
The Government responded to the strike with overwhelming force. The Cabinet was divided, and the Prime Minister, David Lloyd George, ordered the mobilisation of the armed forces. The strike was suppression, and the workers were defeated. The Government then began a campaign of victimisation, targeting those who had supported the strike. The strike was a defeat, but it marked the beginning of a new era of industrial conflict.

The Government prepares

Steel Claim:

‘PAPER AND LEGAL JARGON’

BY KEITH NOORT, SECRETARY, FIA RANK & FILE COMMITTEE, PORT KEMBLA

After 21 days have decided that the investigation into the Steel Award was to be conducted, Justice Cahill decided to set aside a few days to look into the investigation by BOC and the onion soap company.

On the 3rd of May, Justice Cahill held a hearing to consider the claims made by the Steel Award.

The claims included a wage increase for all employees, an increase in hours, and the introduction of a 5-day work week.

Justice Cahill stated that he would make a decision on the matter within a few weeks.

Open Slatter

The judge, one of the senior judges, stated that while there is a lot of technical jargon used in the proceedings, it should be understood by all parties involved.

Incompetent

The secretary of the union stated that the company’s documentation was not clear and that the union was trying to understand it.

Incompetent

The company’s lawyer stated that the union’s claims were not substantial and that the union was not able to present a clear case.

Battler Fighting Fund

The Budget and how to fight it!
IT'S ABOUT TIME!
by Alec Kahn

Latrobe power workers put the heat on

A FEW YEARS AGO, Bob Hawke told Latrobe Valley power workers: "You're the best placed for winning the August poll. You have to be apspecialist for getting it." Things didn't turn out that way. The August week was forgotten in the fight for wages, and it is left to others to make the breakthroughs.

There's a lot at stake right now. The Latrobe Valley power workers are fighting for an increase in wages. Their struggles have important implications for workers throughout Victoria. Their victory will be seen as a demonstration of strength and determination.

The workers have been on the picket line for almost a month. They are fighting for a fair wage that will help them to live a decent life. The power workers are not only fighting for themselves, but for all workers in Australia. Their struggle is part of a wider movement for better wages and conditions.

We stand with the Latrobe Valley power workers in their fight for a fair wage. We support their efforts to win a better deal for all workers. We call on all workers to join the fight for better wages and conditions.

What We Stand For

The International Socialists are a revolutionary socialist organisation fighting for a world without exploitation and oppression. We believe in the power of workers to change the world and we are fighting to win the fight for better wages and conditions.

What's Think

THE SHORTER working week.

For years, the bosses have been pushing for a shorter working week. They have been demanding that we work more hours for less money. They are trying to make us work harder for less money. They are trying to make us work 35 hours a week.

Why we're fighting for 35 hours a week.

THE CLAIM FOR 35 HOURS a week is not just for wages. It's for a shorter working week. It's for a better quality of life. It's for more time for family and friends. It's for more time to enjoy life.

On the Picket Line

WHEN THE BATTLE was joined in the Latrobe Valley, the strikers were ready. They had been preparing for this moment for months. They had been training for this moment. They had been planning for this moment.

The workers were united. They were determined. They were ready. They were fighting for what they believed in. They were fighting for a better world.

COPS RAID CL

ON APRIL 13, two nude cops were arrested in Naarm (the traditional lands of the Wurundjeri people) by the New South Wales Police. The police alleged that the two officers, both white, had been acting as a prop in a photoshoot and a prominent Labor Party member.

Spirited of '76

Meeting

The American dream of being your own boss is real, a nightmare. It would be so tempting to show this film to an audience of revolutionaries, but I don't believe it. The film has been used by the pirate groups to spread their message, and it is the best tool for organizing.
Kenworth’s announcement

It’s over now that the new ‘No-Pay’ agreement is in line. The new agreement is an agreement that has been signed by the workers of the Kenworth plant. It means that the workers will have their pay increased. The agreement has been signed by the workers and the management of the Kenworth plant.

OFFICIALS OBSTRUCT STRIKE

NO PARTICIPATION IN BACK PAY

STAFFORD ELLISON, public officer to the workforce, has a reputation for good management and is one of the few company officials involved in the strike. ELLISON, who is also the vice-chairman of the management, called for the workers to participate in the stoppage and the company to back its employees.

Meatworkers Fight Off Court Attack

Unfairly the action was forced to accept a new agreement in New South Wales. The Meatworkers have been fighting for better pay and conditions for a number of years.

ELECTION

The Meatworkers have won a magnificent victory in New South Wales. They beat the management in the ballot and are now demanding better pay and conditions.

THE BATTLE OF THE UNIONS

MEATWORKERS VS. CIVILIAN WORKERS

A battle is raging in New South Wales between the Meatworkers and the Civilian Workers. The Meatworkers are demanding better pay and conditions, while the Civilian Workers are opposing them.

Entitled

Not only are the unions entitled to the same union, but the union is entitled to the same union. The union is entitled to the same union. The union is entitled to the same union. The union is entitled to the same union.
Garden Island struggle:

PAINTERS AND DOCKERS SINK NAVY

"IT'S PART OF Fren's long-range plan to take on the unions and turn the first stone off the dock."

That's how Dean Holland described the two week old strike by ship Painters and Dockers at Garden Island Naval Dockyard in Sydney. Better a rock and the monster of the strike committee.

The Painters and Dockers had not yet succeeded in solving an air traffic controller's dispute, but they claimed it was not the time for a lock-out, though they later advised the union that the men decided to return to work next week.

All the men, apart from a small number at the victor who had refused to return, were back at work today. The strike, which started on March 7, was called to protest against the proposed new pay scale.

The proposed new scale would give the men a 50c a week pay rise, but the union claimed that the men were losing money.

The Painters and Dockers had been working on the dockyard since the 1920s and had a long history of conflict with management.

"The money isn't worth anything. We are working our heads off and not getting a fair return." was the response from the dockyard.

The union claimed that the dockyard had refused to negotiate with them and that the workers were being forced to accept the new pay scale.

The strike was the latest in a series of disputes at the dockyard in recent months.

The strike continued until the end of March, when the union and management reached an agreement on the new pay scale.

DEAR Battler's,

LETTERS FROM OUR READERS

What about the girls?

Dear Battler,

Having a new born baby is a lot不易. One needs to be in a position to be able to support a family, but new born babies and their needs are not important. I don't think it's the first time someone has been laid off, but it's the first time I've heard of someone who has worked hard and has been laid off because they were pregnant. I can understand how frustrating it must be for the mother, but it's not fair that she should be punished for something she didn't control.

A Battler Reader

EDUCATION

IN THE SLAUGHTERHOUSE

South Sydney — still more scandals

Dear Battler,

Following a recent visit to South Sydney, I would like to bring to your attention the lack of education in the area. The local school and library are in a poor state of repair, and the local residents have expressed concern about the quality of education available to their children.

I have spoken to several parents who have reported feeling discouraged about the future of their children in this environment. The lack of resources and facilities is a real concern, and it seems that the community is being left behind.

Yours sincerely,

[Signature]

ITALIAN DEADLOCK

The Dreaded Communist takeover of Italy has not yet happened. After the elections, the Christian Democratico are still the largest party but it will take many years before the Communists are strong enough to govern. The PCI will not be happy with this result, but it will be content with the spoils of power. The PCI has many supporters in Italy and it will not be easy for the Christian Democrats to defeat the PCI in future elections.

The PCI is the largest party in the Italian Parliament and it represents the working class. The PCI has a strong base in the South of Italy, and it is supported by many workers and peasants. The PCI has been in power before, and it has a solid record of fighting for workers' rights and improving the standard of living for the poor.

The Christian Democratico, on the other hand, represent the interests of the middle class and the large landowners. They are supported by the wealthy and the powerful, and they are opposed to the PCI's policies.

So now it's time to the呈现 backers in Rome as they attempt to patch together some kind of government. The Christian Democratico may still end up with some influence in the government, but the PCI's influence will be greatly reduced.

The PCI is a strong party and it is not easy for the Christian Democratico to defeat it. But the PCI is not invincible, and it will be a long time before the Christian Democratico can again claim to be the largest party in Italy.

Peking Pin-up

Malcolm Fraser used to be a great man, but now he's gone. He was always going through the motions, never really getting anywhere. He's a bit of a charade, really. It's about time he went home.

But it's not just Fraser who's been on the receiving end of criticism. The whole government has been criticized for its lack of action on climate change. People are starting to realize that they can't afford to be complacent any more.

The government needs to take action, and it needs to act now. People are getting tired of waiting and they want results.

Yours sincerely,

[Signature]
ANATOMY OF A MED-MURDER

WHAT DO you call people who make money out of the misfortune of others? Those is what you call people who build an opulent lifestyle on illness and injury, on fear and the running of the health service? YOU CALL THEM PROFITEERS.

And that is exactly what the AMA, the General Practitioners Society, the Health Funds and the Liberal Party are all doing, because these so-called "health insurance" schemes have been pushed on us, and now they're coming back to haunt us.

The system back then was simple. The system KEO the House of Representatives wanted to取消 a few calls out. They'd say: "If we keep our system, the people who will suffer will be people in the public hospitals." And they were right. But, they got their way. They left the government in the lurch.

The health system was divided into two parts: The public system was theoretically free, but the private system was run by profit-seeking businesses. The two systems competed with each other, and the private system was able to take advantage of the public system's weaknesses.

The system has now changed. It's now a single system, with the public system running the private system. The private system is now part of the public system, and the public system is now part of the private system.

This is what they're axeing:

Social Workers Speak Out:

The Battler spoke with Kay Dodd, a social worker from a Footscray (Vic) health clinic.

"Social workers are the backbone of the health system. They are the people who deal with the cases in the public hospitals. They are the people who deal with the cases in the private hospitals. They are the people who deal with the cases in the public hospitals."

"The government is cutting the budget of the public hospitals, and the private hospitals are not. The public hospitals are losing money, and the private hospitals are not."

Wages

"Wages are the lowest in the health system. The nurses are paid the最低的 wages. The doctors are paid the highest wages."

Hospital Workers' Jobs

"Hospital workers are being laid off. The government is cutting the budget of the public hospitals, and the private hospitals are not. The public hospitals are losing money, and the private hospitals are not."

Community Health Centres

"Community health centres are being closed down. The government is cutting the budget of the public hospitals, and the private hospitals are not. The public hospitals are losing money, and the private hospitals are not."

Cheap Medicine

"Cheap medicine is being cut. The government is cutting the budget of the public hospitals, and the private hospitals are not. The public hospitals are losing money, and the private hospitals are not.

THE BATTLER 23 JULY 1976
MEDIBANK
How we fight

TALKING ABOUT SOCIALISM...

TALK IS CHEAP. And when it comes to talk of working class unity, it seems that many of the people who are supposed to be in the vanguard of the struggle are the last to get the message. The problem is how to break the deadlock and bring about a genuine and lasting unity.

Divisions

Some of these divisions are clearly visible, while others are more subtle. But all of them are real and they must be overcome. The problem is how to do this in a way that will be acceptable to everyone.

John Sullivan

The Battler 23 July 1976
Shunters fight roster changes

The 12-hour roster changes that caused the dispute between the Shunters' Union and the Department of Railways threaten to cause major disruptions to Adelaide's public transport system. The Shunters' Union has called for a stoppage of all rail services for 24 hours starting on Monday. The Department of Railways has rejected the union's demands, stating that the new roster will improve efficiency and reduce costs. The dispute has caused widespread concern among commuters and the general public, with many calling for a resolution to be reached as soon as possible.

Ford Workers Take On Bosses

Ford workers and their multi-national bosses are locked in a bitter battle over job security. The Ford plant in Victoria is facing closure, and workers are fighting to save their jobs. The union has called for a general strike, but the company has dismissed the threat, stating that it will not negotiate with the union.

Wollongong Woolies Stop Medi-strike Scabbing

Workers at Woolworths in Wollongong have been on strike for several days, protesting against the use of scab labor. The company has hired a number of temporary workers to replace the striking staff, but the union has condemned the use of scab labor as a violation of workers' rights.

NSW Doctors Rebel

NSW doctors have been on strike for several days, demanding better pay and conditions. The strike has been called by the Australian Medical Association, which represents over 100,000 doctors across the state. The government has refused to negotiate with the union, stating that it cannot afford to increase doctors' wages.

Opportunity

During the past 4 months, hundreds of stranded medical students have been rejected by their medical schools. The students, who are from countries around the world, have been forced to seek alternative training opportunities. Many students have found places at medical schools in other countries, but the process is expensive and time-consuming.

TURN OFF THE LIGHTS!

He sacked our Government.
He attacked our wages.
He threatened our Unions.
He is trying to murder Medibank.

WE CAN STOP HIM...WITH A GENERAL STRIKE!
Talking about Socialism...

The painter and docker Gordon Read is locked at home with his family by a revolution. "They said they would break in, but they haven't. I've been here for a week now. I'm as safe as anyone could be."

The revolution is a worldwide phenomenon, and it is spreading rapidly. In Chile, the workers have taken control of the factories and are holding the government hostage. In Mexico, the peasants are striking for better land distribution. In France, the workers are on the verge of a general strike. The world is on the brink of a new era of social justice and freedom.

LEBANON
WHY SYRIA INVADED

The Syrian occupiers of Lebanon are now being forced to retreat. The Lebanese people have risen up against the Syrians and are demanding their withdrawal. The Syrians are facing a popular uprising that is gaining momentum daily. The Lebanese government is supporting the uprising and is demanding the immediate withdrawal of the Syrians from Lebanon.

STILL MORE THREATS

The Fraser Government is considering a new proposal to introduce an industrial relations bill. This bill would make it easier for employers to dismiss workers and would reduce the power of trade unions. The bill is being resisted by the workers and the unions, who are calling for a nationwide strike.

Power without Glory:
South Sydney style

South Sydney Council's power structure is being challenged by a group of councilors who are seeking to introduce more democratic practices. They are calling for a referendum on the council's decision to sell the council-owned electricity company.

Sullivan's Corner

What the Bull Did in the China Shop

The problem with the bull is that it is not the usual, friendly animal that people are used to. It is a fierce and unpredictable beast that can cause great harm to those who approach it. The bull is said to be particularly dangerous when it is hungry or when it has been provoked.

ACTU FEDERAL CONFERENCE

The Reluctant Militants

by PHIL GRIFFITHS

The first General Strike in Australia's history. Then it was the great meeting of last week's Special ACTU conference. The 387 delegates representing 155 Federal Branches decided to the ACTU voted over weekend for a national 24-hour strike on Monday Aug. 12.

The strike was called as a result of the failure of the Federal government to accept the demands of the workers. The government had been offered a 10-hour strike by the workers, but they refused.

The government then called a meeting of the ACTU, but the workers refused to attend. The government then decided to call a strike, but the workers remained determined to continue their fight.

And so the strike began on Monday Aug. 12.

DAY OF ACTION

Victoria's 'Silent' Day Protest

The strike was a huge success. The workers won a 10-hour strike and the government was forced to make concessions.

The workers were jubilant. They had won a victory and they knew that they would never give up.

Their fight had just begun.

Meatworkers fight Courts

ONCE AGAIN new meatworkers were taking on hissses and moving cautiously in their efforts to win another victory.

The meatpackers' latest round of strikes, which began in May, ended in July with a victory for the workers. The dispute has lasted for nearly three months and involved four plants in the Melbourne area.

The workers, who are members of the Meatworkers Union, have been fighting for higher wages and better conditions for the past year. The latest round of talks broke down in May when the company refused to make any concessions.

The workers have been on strike for nearly three months, and the company has been railing that it would not negotiate with the workers until they returned to work. The workers have been firm in their demands, and they have been supported by the community and other workers.

The Meatworkers Union, which has been involved in the dispute, says that the workers have been fighting for a long time and that they will not give up.

The workers have been on strike for nearly three months and the company has been riling that it would not negotiate with the workers until they return to work. The workers have been firm in their demands, and they have been supported by the community and other workers.

THE GENERAL STRIKE

MONDAY JULY 12. And time and a half million Australian workers went on strike this week.

Bob Hawke took the initiative. He signed the official. Well, we thought it was a victory. We thought we had it. But it hasn't been the end. The strike is far from over. The ALP has not yet declared victory.

At the beginning of the campaign, the ACTU argued against a strike calling for a strike. There would be a comprehensive campaign anyway. We've got to see the industrial and political supports. Some of the new MPs would feel the full benefit and the public.

Nothing

When we first saw the rallies, we looked out to see the vast numbers of strikers. The working women and the rest of the population were discussed.

Nothing, that is, except the politicians. The few people who did get to the streets for a strike. It was a matter of principle. But the strike is not over yet.

NSW

TLC condemns ACTU levies

The only trade union that fully went along with the ACTU levy was the ACTU.

The Australian Worker's Union (AWU) has been campaigning for a new levy on its members for months. The union has been trying to get the ACTU to agree to a new levy.

The AWU has been very active in the national strike. The union has been very active in the national strike.

CANBERRA

600 march on Parliament

Today, many of the strikers were out in force, including the AWU. The Trades and Labour Congress (TLC) has been calling for a new levy on its members for months.

The TLC has been very active in the national strike. The union has been very active in the national strike.

...then and now

Elections

The Catholic Church is a major force in politics. Prime Minister of Australia, the leader of the Liberal Party, is a Catholic. He is very powerful in the country. He has been in power for many years and is very popular. He is known for his strong leadership and his commitment to the Catholic Church. He is also known for his foreign policy, which is focused on promoting peace and stability. He is a very influential leader and is respected by many people in the country.

Opponents

The Labor Party is the main opposition to the Liberal Party. They are the second largest political party in the country. They are known for their progressive policies and their commitment to social justice. They are also known for their strong stance on environmental issues. They are very popular among many people in the country and are a serious threat to the Liberal Party in the next election.
Help us in the Fight for Jobs!

Dear Battler's,

Letters from our readers

THREE CHEERS FOR HAWKE!

Sr,
The Battler's piece on the Prime Minister's recent visit to the ACTU was a breath of fresh air and a welcome shift from the usual focus on union leaders. It's great to see this newspaper taking a stance on issues that matter to workers and their families.

Concerning the ACTU's recent decision to ban press coverage of their meetings, we can only hope that the organization will find a way to balance the need for transparency with the right to privacy. It's important that the public has access to information about the activities of their representatives, but we must also respect the personal lives of those who work for us.

In conclusion, I urge the ACTU to reconsider its decision and find a solution that benefits all stakeholders. We need informed and informed citizens to make informed decisions.

Sincerely,
[Signature]

TRADIES HALL MANOEUVRES

Dear Battler,

I was interested to read about the Trades Hall manoeuvres in your recent article. As a member of the union, it's important for me to be aware of the activities that take place within our organization.

I appreciate the efforts made by the leadership to keep us informed about our rights and responsibilities. However, I believe that more could be done to involve members in decision-making processes. It's crucial for all of us to have a say in the direction our union takes.

Thank you for providing this information. I look forward to seeing more updates in the future.

Sincerely,
[Signature]

Sullivan's Corner

Ms 2 addressed our Olympic contract. The olympics is a great way to promote the country and bring in some much needed tourism. However, the reality is that the games are often just a means to an end, and the benefits are not always as clearcut as they seem.

The question of whether or not to host the games is a complex one, and it's important for us to consider all the factors involved. Ultimately, the decision should be based on what is best for the country and its people.

In conclusion, the Olympics can be a valuable asset for a nation, but we must be careful to ensure that the benefits outweigh the costs. Only then can we truly say that the Olympics are worth the investment.

Sincerely,
[Signature]

Long March!

Dear Battler,

In your recent editorial, you highlighted the importance of workers standing together in the face of adversity. As a member of the union, I couldn't agree more. When we work together, we are stronger and more effective in fighting for our rights.

I appreciate the efforts made by the leadership to keep us informed about our rights and responsibilities. However, I believe that more could be done to involve members in decision-making processes. It's crucial for all of us to have a say in the direction our union takes.

Thank you for providing this information. I look forward to seeing more updates in the future.

Sincerely,
[Signature]

COAL MINERS ANGRY

AUSTRALIA's coal miners are fighting to keep their jobs and their union's contracts intact. In New South Wales, workers have been on strike for 24 hours on the coalfields. In Queensland, miners have locked out by the company. In South Australia, miners have voted to strike.

The miners are demanding higher wages and better working conditions. The companies are trying to cut costs by reducing wages and improving productivity. The government is trying to mediate the dispute, but so far without success.

LATROBE VALLEY:
THE HEAT GOES ON!

THE CRUNCH is coming in the fight by Latrobe Valley power workers for the 33-hour week. The workers are demanding a 33-hour week as a way of reducing the workloads and improving their quality of life.

There's a sense of urgency among the workers as they prepare for the upcoming negotiations with the company. The workers are determined to keep up the fight to get the 33-hour week.

SIT-DOWN!

OVER 1000 production workers at the Syd téc- 
Born's Bend in Melbourne signed a 14-hour contract, effective from 1 July and ending on 1 October.

Sunshine

People work hard and want to support each other. This is how Sunshine operates. The company shares the gains of the company and the workers get paid on a 14-hour basis.

Everyone's happy, there's a sense of togetherness and everyone is paid fairly. The workers feel that they are valued and respected.

BOOTED UP... THEN BOOTED OUT!

THEY'RE REAL GROWING THE BEST DESIGNERS AND NAVIGATORS.

The Battler Fighting Fund

The Battler Fighting Fund has been established to support workers who have been sacked or laid off. The fund provides financial assistance to workers who have lost their jobs.

The fund is managed by the workers themselves, and is funded by contributions from workers and donations from the public.

life under the Libs

JOBLOTTO!!

The Fraser Budget is the death knell for the building industry. What is needed is massive government spending in the building sector to stimulate economic growth.

The government workers are getting sick of working on socially useless projects. Government funding needs to be invested in socially useful projects.

Start Living

on the DoLe

A Captive of the Dole. A Captive of the Dole is a speech by the late President of the Queensland Trades Council.

David Shaw,
Builder's Labourer, 
Canberra

Leasing aside the implications of the enormous sums spent on Government programs, the worst aspect of the Budget is the lack of a public sector. The public is now left to make ends meet in a world of uncertainty.

Apart from keeping unemployment high, the Budget raises the salary of the pensioners in the Public Service and with inevitable result in increased workloads, difficulty obtaining long service leave.

However, growing numbers of public servants are coming to realise that frustration is the only way to stop them, etc. from kicking the daylight out of us.

Peter Elliott,
Public Servant, Melbourne
"It is no longer a question of improved education, improved facilities in Soweto or anything like that. The demand is now for the total transfer of power."

OLIVER TAMBO
African National Congress

NEW ZEALAND
Muldoon’s anti-union crackdown
by TONY SULLIVAN

AUSTRALIA isn’t the only place suffering at this time under an anti-union backlash. Last month, National Party leader Robert Muldoon and his government launched an all-out attack on the New Zealand trade union movement. They are following in the footsteps of Prime Minister Brian Mulroney in Canada, who has recently proposed legislation to end all collective bargaining in the country.

In New Zealand, the government has already introduced a bill to cut the number of public holidays from ten to four. The bill is due to pass into law this month, and unions have warned that it will further erode workers’ rights.

ITALY
Industrial accident? Or mass murder
CHRIS SIMPSON

The workers have been targeted by the authorities after refusing to return to the factory following the accident.

The case of the Italian workers is a clear example of how the global economy has become more dangerous for workers around the world.

BATTLE FIGHTING FUND
Meatworkers raise $20

This month, The Battle Fighting Fund raised $326-38.

The workers doing the job are the workers at Cooperative Farmers and Grazier, Tenterfield, and the Meat Producers Union. They are the same workers who are imported into the United States and who are the backbone of the American meat industry.

The Battle is still on the boil in Australia. Help us out! Join the Meatworkers’ Union to raise more money for The Battle.

The Council has awarded the “Distinguished Service Award” to the workers who have been fighting for better conditions.

The Council has also announced the “International Socialists” Award, which will be given to a worker who has shown outstanding commitment to the movement.

The Council is defending workers but a few rich friends and their own interests.

We want to join the International Socialists

Firemen: Our widows get $15pw

SHIPYARDS: FRASER OFFERS STRAITJACKET
Women: Unemployed and Ignored

We're not just statistics... that's 300,000 lives they're playing with!

"MUST I TURN TO CRIME?"

"We're not just statistics... that's 300,000 lives they're playing with!"

What We Think

What We Think

THREE HUNDRED THOUSAND Australian workers are unemployed.

THREE HUNDRED THOUSAND Australian workers are unemployed. That's three hundred thousand men and women being forced to live on the dole. Three hundred thousand people forced into degrading poverty and dehumanizing drudgery.

There are builders who want to build houses and hospitals. There are welfare who want to move freight, there are shopkeepers who are being prevented from building shops and teachers in New South Wales who are stopped from teaching.

There are families standing idle while the men and women who could not find work are wandering the streets. There are unemployed who are being forced to try their hand at something else.

In Australia today, three hundred thousand people who want to work are being kept out of the factories because the capitalists don't want them to work. The banks and factories are there, the workers are there, the road is there. The only thing stopping them is the owners of the house.

"But for white of his hair is the root of all in this country. So there will be no work until the houses allow it. And when it is said that the houses say, 'We will not work,' we are told, 'It's profitable to work'. When prices are high enough, wages low enough and workers are 'in demand', then the capitalist is happy.

Unemployment is not an accident. "Loss of confidence" is something that happens after a war party has won. It is an inevitable consequence of capitalism. It is today more a product of the 1930's or the 1950's or any of the other depressions.

It is only possible because the capitalist system is the systematic destruction of our standard of living, our union organisation and our rights. If necessary, the bosses will turn to Fascism to get the "confidence" to employ.

The unemployment are starting to fight back. In Sydney, when unemployment is worst, there is the Unemployed Workers Movement. Building workers are marching to parliament and steelworkers are fighting the destruction of their jobs.

Unemployment destroys the life of the worker without a job while it takes the wages and the rights of the workers with a job.

The struggle of the unemployed is the struggle of the whole working class.

"MUST I TURN TO CRIME?"

Political Deportation

The Australian government is deporting
Syrians who have sought asylum there. The
Syrian government is also deporting
Syrians who are not asylum seekers.

Mr. Big and his Motor Company

Why is this man smiling?

Because the Government which
owns him is paying him $102 a day
to improve his business.

Witch-hunt Fails

The Australian government has failed
to deport any of the accused
Syrians. The government has
not been able to provide
adequate evidence to
support its claims.

SAlemi

Mr. Big and his Motor Company

Most of all, it's time to stop
wasting our lives on
worrying about
foreigners. We have
so many problems to
face at home. We
need to focus on
those problems,
not on
foreigners.

MINERS FIGHT CONDITIONS THREAT

Brian Phipps
Secretary, CMU, Huntley Colliery

WHAT'S the penalty for striking? Fine you? Fined? If you're fined, do you think it deters you? What is the fine? It's not just paid by the miner, it's paid by the community who are suffering from the miners' suffering. It's a class war.

The miners are the best workers this country has. The coal industry is in a crisis, where we need to be creative, where we need to be fighting. The miners are the ones who have to struggle to keep the industry going.

The battle is to keep the miners and the coal industry alive. The miners have the right to fight for better conditions, for safer workplaces, for fair wages. They are the ones who are the backbone of the industry, and they deserve better.

The miners must continue to strike until they win. The community must support them. The miners are the ones who are fighting for their lives, and we must stand with them.

LATROBE VALLEY: what went wrong?

The fight for the 35-hour week took two big steps forward last week. Then it took one giant step back.

The 35-hour week for Latrobe Valley workers was a major victory for the community. It was a clear win for the workers, and it was a clear win for the community.

However, the victory was short-lived. The Federal Government has announced that it will not support the 35-hour week. This is a clear victory for the Government, and it is a clear victory for the mining industry.

We must continue to fight for the 35-hour week. We must continue to support the miners. We must continue to fight for a fair and just society.

FRASER SINKS 7000 JOBS SHIPYARDS THROWN OVERBOARD

The Federal Government has just issued a notice to the shipbuilding industry, informing them that they must cut 7000 jobs. This is a clear victory for the Government, and it is a clear victory for the mining industry.

The shipbuilding industry is in crisis, and the miners have the right to fight for their livelihoods. The miners have the right to fight for a fair and just society.

We must continue to fight for the miners. We must continue to support the miners. We must continue to fight for a fair and just society.

Newport — SEC turns up the heat

A CAREFULLY planned campaign of disruption and terrorism.

What the Victorian SEC is planning in its campaign to disrupt the operations of the Newport Power Station.

BANS

- The blocking of the power station's entrances and exits.
- The feeding of the workers with food and water.
- The disruption of the electricity supply.

Burden

- The burden of the workers who have to work in these conditions.
- The burden of the community who suffer from the disruption.

Finally, the miners must continue to fight for their rights. They are the ones who are fighting for a fair and just society, and we must stand with them.

DEVALUATION — two bob business
confidence trick

THE PAPERS were buzzing about Devaluation. Bill Hawke, who last month spoke a
truth that could not be avoided, is now silent. It seems that the Prime Minister
cannot agree with his Minister for Finance, Mr. Gough Whitlam. The problem of
Devaluation is not as simple as it may appear. If it were, the Prime Minister
would have announced it already.

The problem is that the Prime Minister wants to see the Australian dollar
strengthened, which means that it must be devalued. But the Treasurer, Mr.
Whitlam, does not want to see the Australian dollar strengthened. He believes
that the Australian dollar should be devalued, which means that it must be
strengthened. The Prime Minister and the Treasurer cannot agree.

The solution is to find a way to strengthen the Australian dollar without
degrading it. This is not an easy task. The Prime Minister and the Treasurer
must work together to find a solution.

HAMIL. Foster
father to the
Pubs

REMEMBER the Party

ON TUESDAY 13th September, the Parliament and the Government will
be discussing the issue of Devaluation. It is an important issue, and it is
likely to affect the Australian economy in the future.

The government has already announced that it will not devalue the
Australian dollar. This decision was made because of the strong
opposition from the business community. The business community
believes that devaluation would be harmful to the economy.

The government has also announced that it will not strengthen the
Australian dollar. This decision was made because of the strong
opposition from the workers. The workers believe that strengthening
the Australian dollar would be harmful to the economy.

It is clear that the government has made a difficult decision. It has
had to balance the interests of the business community and the
workers. It has made a decision that it believes is in the best interests
of the economy.

NATIONAL COMMITTEE REPORT

CANBERRA BRANCH FORMED

The National Committee of the IS met during September to elect a new number of N.C. members, including the new branch in Canberra. It was decided that the number of N.C. members should be kept reasonably low to enhance the effectiveness of the committee as a whole. The Branch will continue to grow and is set to play a very active role in the development of the party in Australia.

BRITAIN: MARCHERS FOR THE RIGHT TO WORK

The IS has been very active in the UK, where it has successfully organized protests against the right to work. The party has been able to mobilize a large number of workers and has managed to win a number of important victories.

INTERNATIONAL SOCIALISTS

What we stand for

The International Socialist is a revolutionary socialist organization, open to all who support our basic principles and are willing to work to achieve them.

Workers' Power

Workers' Power will be formed on the basis of a workers' council. This council will be elected by the workers themselves and will be responsible for the running of the workplace. The council will be democratically elected and will be subject to recall by the workers.

SMASHING THE CAPITALIST STATE

The state — police, courts, and army — is the instrument of the capitalist class. It is used to maintain the capitalist system and to suppress any attempts to overthrow it. The state must be smashed and replaced with a workers' council system.

REVOLUTION, NOT REFORM

We will continue to work for a workers' revolution, not for piecemeal reforms. The capitalist system is inherently unstable and cannot be reformed. Only a revolution can bring about a truly socialist society.

INTERNATIONALISM

We will work with other revolutionary socialist organizations around the world to build a truly international workers' movement.

The Fight for Workers' Power

The Meaning of Marxism

Lenin

...and Lenin's Bolsheviks

The Russian Revolution

The Bolsheviks came to power in 1917, overthrowing the tsarist government and establishing the first socialist state. They faced a number of challenges, including resistance from the landlords and the army. However, they managed to overcome these obstacles and establish a new form of socialist government.

with Tom O'Lincoln

Talking about Socialism...

The Russian workers played a key role in the revolution, with millions of workers going on strike to support the Bolsheviks. The workers were motivated by the desire for a better life and a more just society.

The Russian workers were able to win the support of the urban working class by promising a better future. They were also able to win the support of the peasantry by promising them land and a better life. The workers were able to win the support of the countryside by promising them a better future.

The Russian workers were able to win the support of the urban working class by promising a better future. They were also able to win the support of the peasantry by promising them land and a better life. The workers were able to win the support of the countryside by promising them a better future.

**Fairfax printers fight for their jobs**

SYDNEY, Australia — Fairfax printers are fighting for their jobs as the newspaper company looks to consolidate and automate its printing operations. The printers, employed at various locations throughout Australia, are concerned about job losses due to the company's efforts to modernize its printing processes.

According to the printers, Fairfax has been reviewing its printing operations, with a focus on consolidating its production sites and introducing new technologies. This has led to discussions about potential job cuts, which the printers believe could result in significant unemployment.

The printers have organized themselves into unions, and they are engaging in negotiations with the management to ensure fair treatment and compensation for any affected workers. They are also campaigning to raise awareness among the public about the potential impacts of these changes.

**The Struggle for a Democratic Union**

JIM HARPER, from the Melbourne Tramsways Rank and File Committee, talks to THE BATTLE about union rights and wages.

Next month, the Tramsways Rank and File Committee is set to hold a meeting where members will discuss the company's proposed changes to the workplace. The committee is concerned about the impact on workers' rights and safety.

Harper emphasizes the importance of union representation in these discussions, stressing that workers should have a say in decisions that affect their working conditions and wages.

The Tramsways Rank and File Committee is advocating for better working conditions and fair treatment of employees. They are calling for support from other unions and workers to strengthen their position in these negotiations.

**Technology vs Jobs: Umteenth Round**

Recently, the Herald & Weekly Times reported that technology is leading to job losses in various industries. This has sparked debates among workers about the balance between technological advancement and job security.

The scenario is one of many in Australia, where the rapid pace of technological change is threatening the livelihoods of many workers. The Herald & Weekly Times highlights the challenges faced by workers in maintaining their jobs as automation and technology continue to evolve.

The newspaper calls for a reassessment of how technology is being integrated into the workforce, advocating for the creation of new job opportunities and support for retraining programs. The paper argues that while technology can be a boon, it must be managed in a way that preserves jobs and reduces the risk of unemployment.

**Herald subsidiaries sellout**

WHEN THE Herald & Weekly Times voluntarily put their print operations up for sale, it was a shock for workers who had expected the company to continue in operation. The sale was announced in the latest edition of the newspaper, causing workers to question the future of their jobs.

The sale, which covers print operations across the country, has raised concerns about the impact on local print media and the potential loss of jobs. Workers are seeking answers from management about the implications of the sale and the future of their careers.

The Herald & Weekly Times is known for its historical significance in Australian journalism, and the sale has sparked a debate about the future of print media. Workers and stakeholders alike are calling for a transparent and fair process in the sale negotiations.
Muldoon's crack-down cracks up

NEW Zealand workers are fighting back against the wage freeze imposed by the Government.

"Pay Muldoon!"

New Zealand's biggest trade union, the Transport and General Workers' Union, has announced a one-day strike to protest against the wage restraint measures.

"The Government is trying to pull the rug from under workers' feet," said union official John Smith.

"We are not going to allow them to sell us out. We are going to fight this every step of the way."

Coal claim: NO WINNERS

The coal industry is on the brink of collapse as workers continue to strike over pay.

"We need to win this strike," said striker Sam Johnson.

"We are not afraid of the bosses. We will not be pushed around."

PBR STRIKE FAILS

FURIOUS workers staged a protest outside the PBR brewery to show their support for the three-week strike called by the Amalgamated Workers Union.

"We will not be cowed," said striker Mike Brown.

"We are fighting for our jobs and our families."

THE LAST OF THE MAOISTS

MAO IS NOT we told in Indonesia and slowly the Maoists in China's border-areas are falling.

But for weeks after the death of Mao Zedong the word of this news spread slowly. The public did not know what was happening in China and did not care. The Chinese labour movement had been split and divided for years. The Maoists felt a kind of gloom when they heard the news, but the 10th Congress of the Communist Party of China on April 4, 1976, gave them a new hope. This article was written by the Chinese Communist Party. On April 5, the news was reported in this newspaper. Some experts believe that the influence of the Maoists may last for a long time.
Dear Battlers,

A UNION SHOP HERE!

A Step Towards Socialism?

Dear Battler,

We are writing to you because we believe that workers must have a say in the decisions that affect their lives at work. The idea of a union shop, where workers have the right to choose whether they want to be members of the union or not, is a step towards social ownership of the means of production. This is important because it gives workers the power to negotiate better working conditions and wages, and to have a say in the running of their workplace.

Yours sincerely,

[Signature]

Dear Battler,

The idea of a union shop is not new. In fact, it has been around for many years. The first union shop was established in the United States in the 1930s. Since then, union shops have been established in many countries around the world. The idea is simple: workers have the right to choose whether they want to be members of the union or not. If they do not want to be members, they still have the right to work in the workplace.

Yours sincerely,

[Signature]

Dear Battler,

We urge you to consider the benefits of a union shop. By choosing to be a member of the union, you will have the opportunity to negotiate better working conditions and wages, and to have a say in the running of your workplace. We believe that this is a step towards social ownership of the means of production.

Yours sincerely,

[Signature]

Dear Battler,

We appreciate your time and consideration. We believe that a union shop is a step towards social ownership of the means of production. We urge you to consider the benefits of this approach and to support it.

Yours sincerely,

[Signature]
Above the Law

by Dave Nadel

VICTORIA. It was a typical 'Club'.

PHILIP MORRIS, 1500 WORKERS ARE ON STRIKE BECAUSE OF ILLEGAL STANDOWNS

It's the Principle of the thing

WHAT WE THINK

POLICE ARE NOT UNIONISTS!

PULPIT TO PRISON

Police are not unionists!

Morgs is not the kind of place you'd expect to find a union

A New Direction

The police were not well respected in the local community. The community was divided over the police's actions.

PHILIP MORRIS

The police were seen as a threat to the community. They were accused of using excessive force and of intimidating local residents.

Prison

The prisoners were given a hard time. They were held in solitary confinement and were not allowed to communicate with the outside world.

Stocks

The police were seen as a threat to the community. They were accused of using excessive force and of intimidating local residents.

WANTED!

300 JOBS

Other prisoners included

The police were seen as a threat to the community. They were accused of using excessive force and of intimidating local residents.

The inspection car is being used by the company.
HAMER DECLARES WAR

The Battler
PAPER OF THE INTERNATIONAL SOCIALISTS
NUMBER 28, 24 November 1976
10 Cents

HAMER DECLARES WAR

By Dave Nadel, National Executive, International Socialists

Tuesday 28 December

The Philip Morris Union War
The Philip Morris Strike is one of the year's most significant industrial disputes. It is the first year that the TUC has been able to mobilise its resources to support the workers involved.

The 1960 workers at the Philip Morris plant have been on strike for four weeks. They are demanding a pay rise of 30 cents per week, an increase in the casual rate to $2.70 per hour, and an end to the practice of giving them extra work at weekends.

The company has refused to negotiate, and has brought in replacement workers. The dispute has become increasingly bitter, with violence and vandalism on both sides.

Victorian Premier Dick Hamer has declared war on all of us.

He has declared war on the trade union movement. He has declared war on the workers. He has declared war on the people of Victoria.

This is not a war of words. This is a war of action. This is a war of power. This is a war of the people against the government.

The workers at Philip Morris are not alone. The workers of Australia are united in their struggle against the government of Victoria.

We will not be defeated. We will not be intimidated. We will not be cowed. We will not be beaten.

We will fight. We will win. We will make the government of Victoria pay for its attack on the workers of Australia.

Get yours on time!

SMASH THE 'Vital State Projects' BILL

WHO THE HELL IS HAMER TO TALK ABOUT DEMOCRACY?

What We Think

Hammer has to be stopped dead in its tracks. And we have the power to do it.

No Backing Off” Charlie Faure

Charles Faure, secretary of the Electrical Trades Union, wants the E.T.U. to pull its weight in the battle against the Government’s proposed projects. He said today: "We need an all-out campaign to stop them."

E.T.U.

Charlie Faure was asked to resign because he did not conform to the Government's policies. But it is more than just politics. It is a question of principle. If we were to let the Government get away with this, then we would be selling out the future of our country."

Finally brought in to understand the importance of the situation, the Government has decided to withdraw the projects. But this is only a temporary measure. The E.T.U. will continue to fight for the rights of the workers, and will not give in to the pressures of the Government.© 1976 The Battler

LYNCH TURNS THE SCREW

There will be no economic recovery next year.

On November 7, Lynch announced his new economic policy. A billarding a credit squeeze on the middle-class, it is aimed at curbing inflation and getting the country back to work. Lynch has already started attacking the government's economic policies, saying they are not doing enough to刺激 economic growth.

Unemployment is high and union bashing and spending cuts have not solved Australia's economic crisis.

Now the Liberals are panicking.

On this page, TOM O'LINCOLN looks at the news behind the news.

FRASER GETS THE JITTERS

ALAN FRASER is losing his nerve.

There have been signs that the Fraser government is losing its grip on the budget. The Fraser government has been criticized for its handling of the economy, and some are starting to question whether it can continue to govern.

The Fraser government has been facing pressure from the opposition and the media, and some are wondering if it can weather the storm.

THE FOX REPORT

ALEC KAIN COMMENTS

You pay your money and you take your pick.

That's the motto of the Fox Report on当年's winning film.

The Fox Report is a每周的 program that reviews the latest in entertainment. This week, the focus is on the film that was recently released.

The film was produced in the United Kingdom, and it has received critical acclaim. The Fox Report's reporter, ALEC KAIN, takes a look at the movie and gives his thoughts on it.

ELECTED BY DEFAULT

In Queensland it takes a great deal of effort to get the vote out. And in New York, it's a different story.

The New York Times reports that in the recent election, the majority of voters went out and voted for the incumbent president.

The question is, how effective is that support going to be?
BEAT
THE
PRESS

“The News” the journos forgot

On the Fairfax Picket

The News, the Fairfax newspaper, has been under attack from its workers for some time. The workers have been protesting against the company's policies, which they claim are unfair and unjust.

The workers argued that the company had failed to consult with them before implementing changes to their working conditions. They claimed that they had not been properly informed about the changes and that they had not been given the opportunity to discuss them.

The workers also argued that the company had failed to provide them with adequate training and support to help them cope with the changes. They claimed that the company had not provided them with the resources they needed to do their jobs effectively.

The workers were particularly concerned about the changes to their working hours, which they claimed were unreasonable and unfair. They argued that the company had imposed long hours and that they had not been given adequate compensation for their work.

The workers had been protesting for months and had staged several walkouts to draw attention to their cause. They had also been supported by other union members from around the country.

The company, on the other hand, argued that it was simply trying to improve the efficiency of its operations. It claimed that it had to make changes in order to stay competitive in the market.

Despite the protests, the company continued to implement its changes, and the workers' frustration grew.

The situation came to a head in October 1984, when the workers staged a strike that lasted for three days. During this time, they blocked the company's offices and refused to let workers in.

The strike was eventually settled, but the workers remained unhappy and continued to protest against the company's policies.

Fairfax Lies

Since the dispute began, Fairfax has been publishing full page advertisements in its newspapers, promoting its side of the story.

The company has argued that the workers were simply trying to disrupt its operations and that it had no choice but to implement the changes.

The company has also claimed that it was acting in the best interests of its employees and that it was simply trying to improve the efficiency of its operations.

The company has claimed that it had consulted with the workers before implementing the changes and that it had provided them with adequate training and support.

The company has also claimed that it had given the workers adequate compensation for their work and that it had not imposed long hours.

The company has argued that it was simply trying to improve the efficiency of its operations and that it had to make changes in order to stay competitive in the market.

The company has also claimed that it had consulted with the workers before implementing the changes and that it had provided them with adequate training and support.

The company has also claimed that it had given the workers adequate compensation for their work and that it had not imposed long hours.

Public Service Elections

FRIGHT FOR THE RIGHT

THE RUSSIAN WAY

Sunshine’s Dictator Sacks 28

THE BATTLER

Dear Battler,

Deakin’s article in the last “Battler” on the Peoples Budget compares to a set that was once mine. Today, by and large, all of our work, the public service unionists, will fit in with the Peoples Budget. This is interesting. This perspective may just be my own, and I would be free to do anything that I think is right, but this is not the view of the public service unions.

This issue features several articles providing an in-depth analysis of the Peoples Budget. These articles are written by experts in the field and provide a comprehensive look at the budget’s impact on society.

The Russian Way

Dear Battler,

“The major factor in the wage structure seems to be payment by results.”

Join the Newport Fight!

THE Industrial legislation being introduced by the new government is nothing less than an attempt to institutionalise anti-unionism and introduce 'comprehensive industrial relations'.

This is part of a statement issued by the IS National Executive, the national Newport executive is also calling for a big response from members of the IS across the country. The 30 in Melbourne have been fighting the lockout and we're calling on members in the IS to support them. The IS is fighting for a new industrial relation system that will be fair to all workers.

BRANCH NEWS

The Newsletter is here again! We have a lot of new members and we're looking forward to hearing from you. If you have any news or events that you would like to share with us, please send them to us. We're always looking for new members and we're happy to help you get involved.

AMWU women get moving

AMWU women are on the move! They're taking action against the lockout and they're not going to be stopped. They're not going to be silenced. They're going to fight back. They're going to win.

ANIMALS!

Kenworth locks out 280

The company that not only puts the animals in the mud, but also in the lockout. They're the ones who are responsible for the lockout and they're the ones who are going to pay the price.

HERE'S HOW TO SMASH SCABS

The gates are off in Sydney's retail butcher shop. The butcher, who had no previous knowledge of the situation, was shocked to find that they could not carry on with their usual work.

The IS Summer Camp

The IS is holding a summer camp at the end of February. It will be an opportunity for members to come together and discuss the issues that are facing the union movement.

Workers, Power and Control

Workers control the economy, the government and the community. Workers are the backbone of the society. Workers are the people who make the economy work. Workers are the people who make the government work.

Revolutionary Party

We believe in a world where workers control the economy, the government and the community. We believe in a world where workers are the backbone of the society. We believe in a world where workers are the people who make the economy work. We believe in a world where workers are the people who make the government work.

THE NORTHERN IRELAND ‘PEACE’ MOVEMENT
An Open Letter from BERNADETTE DEVLIN to JOAN BAEZ

YOUR intention to come and appear at the Trident Street rally on the Northern Ireland Peace Movement this Saturday has been widely publicised in Ireland and at home.

The letter is to ask you to reconsider your intention to come and support the Northern Ireland peace movement. We, the peace movement leaders, have been informed that your visit to Ireland is a matter of great concern to many people.

Yours sincerely,

Berenice Devlin

STRAIGHTENING OUT THE PRESS

The report that the press is not doing its job is a threat to the democratic process. The tightening of the press control system is a grave concern to the people of Northern Ireland.

We must all work together to ensure that the press fulfills its role in the democratic process.

We were Right
SUNSHINE RATES UP

We are pleased to announce that the sunshine rates have increased.

We hope that this will encourage people to spend more time outside.

On the Picket Line

This strike has been called to protest against the cuts in public services.

The workers are determined to fight for their rights.

Better organised every day

We asked our colleagues how they thought the strike was going. They replied:

We're getting better organised every day.

Fairfax: Now it’s a war of attrition

REPORT: Tom O’Lincoln

After seven bitter weeks the Fairbanks strike has turned into a grim war of attrition.

The miners have finally decided to fight back. They have launched a counter-attack.

The miners are determined to win.

Fairfax dealers have finally surrendered.

The miners have finally surrendered.

On the picket line

This strike has been called by the miners who want to protect their jobs.

The miners are fighting for their lives.

We asked the miners what they thought of the situation.

The miners replied:

We're fighting for our future.

Fairfax's support is waning.

The miners are determined to throw out the Fairfax dealers.

FAIRFAX: Now it’s a war of attrition

REPORT: Tom O’Lincoln

Dear Battler,

Keep This Out of Sunshine

We are the Sunshine Action Committee, and we are very concerned that if you are not careful, you may be losing out as a result of the Sunshinepowers. Some of our members have noticed that in recent weeks, the amount of sunshine in the region has been decreasing. We believe that this is a deliberate attempt by the Sunshinepowers to reduce the amount of sunshine available to the public.

We are writing to you to ask that you sign our petition. We are planning a demonstration outside the Sunshinepowers headquarters on Sunday, July 19, at 2pm. We need your support to make this protest successful.

Sincerely,

[Signature]

Sunshine Action Committee

The Communist Party and the People's Budget

Dear Battler,

The Communist Party is proud to announce its new People's Budget. The budget includes measures to reduce poverty and inequality, as well as initiatives to promote social justice. We believe that this budget is the best way to ensure a better future for all.
