

***To all Breakfast and Hometime workers and other interested parties!***

There will be a 3CR S11 meeting on Monday 14<sup>th</sup> August at 4pm

This meeting will discuss (not exclusively!):

**1. 3CR programming in the week leading up to the protest, as well as programming during the protest**

As you are probably aware, all current affairs shows in the week leading up to the protest will be dedicated to S11 and issues around globalisation. Each day will have a theme, and the theme for each day is:

Monday:	Women
Tuesday:	Third world, the South, the developing world
Wednesday:	Workers
Thursday:	Environment
Friday:	Indigenous people

We encourage you to start thinking about who you might want to have on your special S11 show.

We will also be discussing times for technical training in the use of the mobile phone unit, which is used for doing live crosses. Those programmers who have shows on days of protest (Monday Sept 11, Tuesday S12, Wednesday S13) might be specially interested in this.

**2. Indymedia**

Indymedia is a loose group of people interested in doing independent media for S11. The main focus for Indymedia is their website ([melbourne.indymedia.org](http://melbourne.indymedia.org)), which is up and running at the moment. Anyone can put audio, video, text, stills etc up on this website for people to look at and other media organisations to use. 3CR will be putting stuff up on here too.

We will be arranging times for 3CR programmers to learn how to put stuff up on the Indymedia website. If you are interested in going to Indymedia meetings they are Mondays at 7pm at the Builders Arms.
