To the Prime Minister's laws at the expense of we the electors.

Lowe wants to see changes in these McMahon's own electorate, has shown that abortion and homosexuality are people as individuals. He is obviously believe that politicians should be Commonwealth. An abortion which is concerned with an issue that affects the legal in South Australia would no longer be illegal in Queensland.

uniform laws such as the divorce laws laws, and a change in Federal law would affect only the ACT and NT. Mr McMahon opposes the liberalisation of the laws prohibiting homosexual acts. The laws which govern homosexuality and abortion are state laws, and a change in Federal law would affect only the ACT and NT. Mr McMahon opposes the liberalisation of the laws prohibiting homosexual acts.

Another of the few countries in the world still that will be fought and won in the Federal sphere. If law and order is to be maintained in Australia than universities men and the percentage of women in the economy. Women do not receive equal treatment in employment. They are not only widowed, divorced or left behind; they are expected to rear children, to make a career of child-rearing - a career that leaves them little worthwhile to do after their youngest child is five years old. In Australia, women do not control of their own bodies, they can be forced by law to bear children they do not want.

Parliament has a duty to protect the rights of children; to ensure that all children are wanted; that they are properly educated, and in Australia, any army that tried to take over this country would be sure; their enemy would be every child, every child. On our home ground we would field a force of a million parrilla fighters. Young women, poolers, pensioners, uni-students - all united minorities would make hell for any opposition. And that is our greatest danger. That is our best defence; supported not with guns but with the fighting spirit of the population, and hospitals to keep our 'true friends', and freedom to increase the will to fight, if challenged.

Australia has been led in me, and I was born to a situation where the freedom of homosexuals is challenged by the parliament. If you think it's un-Australian to be a homosexual, then till this year, in Australia, it would be to be a homosexual-Australian and not fight to have rights restored to me that are accorded to everyone else. The right to love someone, and the right to be loved by someone physically, that love is reciprocated.
