

1966 FED
ELECTION.

For a "people first" policy . . .

VOTE FOR COMMUNIST CANDIDATES

and take that grin off Harold's face

The Liberals and big business direct their main fire against the Communist Party of Australia. Why? Because Australian Communists wage a consistent struggle to advance the interests of Australia's people at the expense of the big monopolies; because we fight for curbing and controlling both Australian and foreign monopolies and eventually placing them under the rightful ownership of the Australian people; because we fight to replace subordination to American policies with an independent Australian policy for peace and friendship with Asia and all countries. A vote for these candidates is the Australian people's best answer to the Liberal Government and its "profit first" policies.

VOTE **1** for

N.S.W.:

- W. J. BROWN (E. Sydney)
- H. HATFIELD (Banks)
- R. MAXWELL (West Sydney)
- L. KELTON (Werrriwa)

**BEHIND HOLT'S TOOTHPASTE-AD
GRIN -- what Liberal policy is doing to YOU**

WHAT LIBERAL POLICY IS DOING TO YOU

INCREASED

living costs

... and Harold just smiles ...

INCREASED

war suffering

... and smiles ...

INCREASED

foreign take-over

and SMILES!

LIBERAL policy is nothing to smile about. It spells higher living costs, a stagnating economy, rising unemployment and decrease in value in the dollar. From a leading place in the world in social services Australia has dropped to 14th under the Liberals. Directly due to Federal Liberal Govt. policy, most States face big rises in charges for transport, health, stamp duties, insurance and other living costs. New burdens have been added in the copper and steel price rises imposed by big business — with full Liberal blessing.

LIBERAL policy with its "lottery of death" forces conscripts to die in Vietnam because it can't get volunteers for this brutal, unjust war. It is a war NOT defending Australia but harming our future as a nation that must live as part of Asia. The longer we are involved, the bigger the casualty list, the more the suffering for Australian youth and their families. Liberal policy of "all the way with LBJ" commits us to a course heading to the nuclear brink.

LIBERAL policy is selling Australia's birthright to foreign big business. The Government's own Trade Department shows that of 872 manufacturing companies in Australia with foreign capital, 812 are overseas controlled — 506 are completely overseas owned. As Deputy Prime Minister McEwen warned Australia's heritage is being sold "piece by piece".

To meet soaring war costs in Vietnam and sagging economic problems at home the Liberals plan a new "slug the people" budget if the Holt Government is returned. DON'T GIVE IT THE CHANCE.

PUT VALUE IN THE DOLLAR — PROVIDE REAL PURCHASING POWER AND BETTER LIVING STANDARDS FOR AUSTRALIA WITH THIS POLICY:

★ Real pay increases — met from profits (ACTU demands for a \$4.30 basic wage and a \$5.90 margins rise as the starting point.)

★ Federal referendum for strict price control.

★ Federal finance for these public needs:

A National health service (including free hospitalisation). Higher pensions. Cheaper, better transport. Better education. Homes at low interest. National water conservation. (Finance to be found from heavier tax on big business and appropriate reduction in current, excessive \$1,000 million a year military expenditure.)

★ Stop our policy being decided by America and change to a "Made In Australia" foreign policy.

★ Honour the Geneva Agreement. Withdraw troops from Vietnam and work for peace and trade with Vietnam and all Asian countries.

★ Recognise People's China.

★ Public control of Australian industry, not control by home and foreign monopoly interests such as BHP and GMH, more urgently needed than ever as the motor and other industries slump and unemployment trends recur.

No conscription for Vietnam!

SOCIALISM — FOR REAL NATIONAL DEVELOPMENT

Australia's a great country — it will truly be an Australia unlimited — a land of "golden soil and wealth for toil" when it is owned and run by and for the people under socialism instead of the present "profits first" policy of the Liberals and their big business backers.
