Women And The War.

In Queensland.

(Part 2.)

A woman as the proper judge of war. And in these days of war, women are expected to take a more active part in the work of national defense. The time has come when women must be counted as part of the working force of the nation. They are not only capable of doing the work, but they are also willing to do it.

In order to support the government in its efforts to win the war, women have joined the ranks of the volunteers. They are working in factories, and in the fields, and in the hospitals. They are doing their best to help the men who are fighting for their country.

Women are also helping to raise money for the war effort. They are supporting the sale of war bonds, and they are contributing money to the Red Cross.

In addition to these activities, women are also working to improve the conditions of the soldiers. They are providing food and clothing for the soldiers, and they are helping to care for the wounded.

Women are proving themselves to be an essential part of the war effort. They are proving that they are just as capable of doing the work as the men.

In conclusion, women are playing a vital role in the war effort. They are proving that they are just as capable of doing the work as the men, and they are doing it with a great deal of courage and determination.

Capitalist Hypocrisy.

WHERE WE ARE ROBBED, HOW WE ARE RICH, AND HOW TO REMEDY IT.

By W. Boge.

Many people are not aware of the extent to which the capitalist system robs the working class. They are not aware that the capitalist system is a system of exploitation.

In a capitalist society, the workers are exploited by the capitalists. The capitalists own the means of production, and they use this control to make profits at the expense of the workers.

The workers are paid a wage that is far below the value of the work they do. This is because the capitalists are able to pay wages that are low enough to keep the workers from being able to buy the products they work to produce.

In addition, the capitalists are able to force the workers to work long hours for little pay. They are able to do this because they know that the workers have no other choice but to work for them.

The workers are also forced to work in dangerous conditions. They are forced to work in factories that are not properly maintained, and they are forced to work in mines that are not properly ventilated.

The workers are also forced to work in conditions that are not healthy. They are forced to work in conditions that are dirty and unhealthy, and they are forced to work in conditions that are not safe.

In conclusion, the capitalist system is a system of exploitation. The workers are robbed by the capitalists, and they are forced to work in conditions that are unhealthy and dangerous.

In order to remedy this situation, the workers must demand better wages and working conditions. They must demand that the government regulate the capitalist system in order to protect the workers.

In addition, the workers must organize and fight for their rights. They must demand that the government pass laws that will protect the workers.

In conclusion, the capitalist system is a system of exploitation. The workers must demand better wages and working conditions, and they must organize and fight for their rights.

Foul Parastites. The Worker, the Prostitute, and Conscriptation.

The Menace of Conscription.

The workers of this country will do well to consider carefully what is hinted at in an article recently written by a prominent American newspaper man. It is a well known fact that when war is declared the men of this country are forced to serve in the army. This voluntary act of service is not only a tremendous sacrifice but it also involves a great deal of trouble and hazard. The men are required to leave their homes, families, and friends and go to war in order to defend their country. This is a very serious situation and it is important that the workers should be aware of it.
