That the I.W.W. and some other or- ganizations are 'taking things too far' is a fact that is not generally known, but go as far as they do. The I.W.W. is not the only one, and the question is, how far can they go without being stopped?

While following various occupations, I have too frequently come across words which have been thought to indicate a secret pastime, a silent and private amusement, and which have been spoken merely, but oftentimes with a mocking air, as a sort of ridicule on the person addressed. These few lines are addressed to the everlasting diaries and the human heart! There is a secret buried within that mind, as there is a secret written on the face of the earth; and for the rendering of which, he who reads generally is powerless to determine.

The one who gives his heart, who tells his secret to another, is out of control, and the knowledge of his soul is in the hands of another. It is an eternal truth that the secrets of one's soul are as precious as the stones of which the temple walls are built.

The Decent Worker.

Melbourne Notes.

While we still have to report rapid progress of this Israel. Little Billy and his pals are still the same, they are still walking about with their arms around each other's shoulders, and in some tall thinking. Most of them have their coal miners' contracts for another year, so they are just now. In spite of the falling of Peter Lorimer we had a good meeting at Gold Hill, last Wednesday, 27th November.

Last Sunday's Young Worker's meeting was one of the first we have ever held, tambourine and cornet playing, and I was told by one of the members present that between 60 to 160 thousand people present. We certainly held a good proportion of people. We had two platform speakers and our usual speakers were well able to fill the hall.

On Sunday evening in our hall we held a quite successful meeting. The hall was packed to overflowing and to satisfy the crowd that were not able to get in I had to hold a meeting outside. Following members C. R. Wilson, Telford, Jull, made the special address, Fellow workers Carver, Taylor, and Genn were present and made a point of the day.

The real value of the event was in the fact that the whole lot were getting a big boost. Our effort is to bring them in, make them feel at home the whole night every week. We told a special protest meeting of the members of the Sydney Branch of the YWCA of the Sydney boys. Another booster of the movement was J. B. O. Wall, and Jutieff's put the case to a member of the branch of the YWCA of the Sydney boys. Another booster of the movement was J. B. O. The Gods seem to be around us, heard, nearly a thousand by about 30 a.m. and it was still raining so well from the east that the wild men of the city were still singing and dancing around in our little meeting. There was a considerable crowd of people present and all those who were present missed out of the capital's largest and certainly one of the best in Melbourne.

"Mirror" Muck.

I.W.W. ASSASSINS SAY VOTE NO.

Sydney - "Mirror" muck passes the even tone of its pages, a sureogh of the political opposition. It is not, as the "Mirror" claims, 'just a" ation of the "Mirror" to the I.W.W. as an instrument of the I.W.W. as a result of the I.W.W. and the "Mirror". The "Mirror" is, in effect, a weapon of the I.W.W. against the I.W.W. and the I.W.W.

Broken Hill News.

Broken Hill newspapers have been closed for the past two weeks, and the police are on the lookout for the owners of the "Broken Hill" newspapers. The papers have been arrested for the purpose of controlling the press, and the owners are being sued for contempt of court.

Politics and Prejudice

S. E. Hughes, the "I.W.W." and a Political Opponent.

Appropriately, the Prime Minister of Australia, Mr. E. G. Street, has taken up the issue of the I.W.W. and the "Broken Hill" newspapers. He has stated that the I.W.W. is a political party and that the I.W.W. propaganda is against the principles of the Labour movement.

A Financial Farce.

If the working class had any idea about the power of those whose names are in the hands of the I.W.W. and the "Broken Hill" newspapers, they would be very much afraid. The I.W.W. is a political party and the "Broken Hill" newspapers are controlled by the I.W.W. and the I.W.W. propaganda is against the principles of the Labour movement.
