

# **WORKERS AGAINST WAR**

**AS A WORKER WHAT WILL YOU BENEFIT FROM THE WAR ?**

**WILL THE WAR?...  
LOWER TAXES - NO!  
RAISE TAXES - YES!**

At the present average Australian workers pay 10% of their taxes to the upkeep of the Armed Forces. With the cost of the war rising by how much will they raise our taxes?

**WHO WILL BENEFIT FROM THE WAR?  
THE WORKER - NO!  
BIG BUSINESS - YES!**

In Vietnam 50,000 U.S soldiers died. It is predicted that 30,000 allied soldiers will die in the first stages of the war in the Middle East, all conscripted from the ranks of the working class.

It is no secret that this war is to ensure access to cheap oil - not for the benefit of workers, but for bigger profits for the oil companies.

Since the war began arms manufacturers are looking at bonanza profits. Even more profits from death and destruction.

Every dollar spent on arms is a dollar less spent on hospitals, schools and community services.

## **NO WAR FOR OIL!**

**WORKERS AGAINST WAR...** is a rank and file group from all industries and unions who want to stop the war.

**WORKERS AGAINST WAR's** aim is to put pressure on the Labor Government to withdraw Australian troops from the gulf.

**WORKERS AGAINST WAR** support a peaceful resolution to the war. A resolution which must benefit the majority of workers everywhere.

**GET ACTIVE**

**GET ORGANISED**

**WORKERS AGAINST WAR MEET AT TRADES HALL....  
TUES 29th January 6.00pm The Old Ballroom**
